NUMBER 29

Naramata Road Car Is Won By H. Broad And Jack Dunlop

Funds Of Okanagan Valley Highway Association Benefit To Extent Of About \$800 Through Draw For Plymouth Sedan—Dining-Room Of Royal Anne Hotel Packed To Capacity For Second Annual Get-Together Dinner

"BROAD AND DUNLOP"

Such was the inscription on a small bit of pasteboard which brought smiles of joy to the faces of Messrs. Harry Broad and Jack Dunlop, co-managers of the Royal Anne Hotel, on Monday night. And well might they have smiled. For their names on the pasteboard meant that they possessed the Plymouth sedan, drawn in aid of Naramata road funds.

It was a happy and fun-provoking group of persons who packed the main dining-room of the Royal Anne to capacity on Monday night for the second annual get-together of the Okanagan Valley Highway Association and those interested in the furthering of the Naramata road work.

Many and varied brief reports were heard concerning the activities on this voluntary highway during the past year. Applause was spontaneous when it was determined that through the efforts of the three ladies—Mrs. J. N. Cushing, Mrs. J. B. Knowles and Mrs. P. B. Willis—who started the car drawing idea, the Naramata road funds had been swelled to more than \$800.

In the election of executive officers, the following were chosen: J. R. Campbell, John Cushing, H. V. Craig, F. W. Groves, Percy Harding, Roy Hunt, J. B. Knowles, Sam Miller, R. G. Rutherford and Harry Witt.

When the time for the drawing finally arrived, Dr. W. J. Knox and Mr. Dave Chapman were asked to assist in mixing the tickets in a large barrel. Mr. Chapman showed a mean ability at barrel rolling and the tickets were given a thorough tumbling. Then Mrs. Cushing called out little Madeline Burr to draw the winning ticket.

There was an expectant hush. Mrs. Cushing looked startled for a moment, glanced quickly around the room and then announced to the gathering that "Broad and Dunlop" had won the coveted car.

Mr. H. V. Craig, who has been the leading spirit in the Naramata road work since its inception, was chairman of the banquet and called upon numerous members of the audience to outline their views on the subject.

Among those who spoke briefly were: Mayor O. L. Jones, Messrs. D. C. Patterson, Vice-President, Board of Trade, D. C. Fillmore, President, Junior Board of Trade; F. W. Groves, R. G. Rutherford, Percy Harding, S. T. Miller, J. R. Campbell, Roy Hunt, G. A. Meikle, J. B. Spurrer, J. B. Knowles, J. H. Broad, Dr. B. F. Boyce, Mrs. J. N. Cushing, Mrs. J. B. Knowles and Miss Jennie Reid.

Tribute was paid to Mrs. Cushing, Mrs. Knowles and Mrs. Willis for the energy they expended in arranging the car drawing, and Mr. Meikle presented the first two named with a lengthy scroll. Mrs. Willis being unable to be present. This scroll was on the same lines as that forwarded to Miss Stella Clayton in England, last year, and informed these ladies that they are "dynamite dames".

(We regret that this report of the meeting is necessarily much abbreviated owing to the illness and absence from work of Mr. "Tim" Armstrong, who covered the event but has been laid up at home since Tuesday with a severe cold.)

FEDERAL ENGINEER VISITS PENTICTON ON LEVEL OF LAKE

Heavy Snow And Rainfall In Valley And Hills Cause Of Alarm

PENTICTON.—W. E. Keyt, Dominion Government Engineer stationed at New Westminster, visited Penticton last week and inspected the beach front at Skaha Lake where property owners are complaining of damage done to the lake front by high water and high waves.

The newly-formed Skaha Beach Property Owners' Association is now making representations to the Municipal Council and to the governments on the subject. Several cottages have been damaged, much beach front has been washed away and a number of trees have collapsed, owing to the wave action.

Only Part Removed

While the lake water is high, it is no higher than during last season. The existence of high south winds, however, has created the damage.

In connection with removal of the breakwater at the mouth of the river, it is pointed out that only part of the structure above water has been taken away. The stone mound foundation under water still remains and serves to control the current and protect the beach from gouging.

The Property Owners' Association is anxious that control works be installed at the Falls so that when the maximum flow is coming through the control dam at Okanagan Lake, more water can be let out of Skaha Lake. Thus, during the winter season when high

MISS TAYLOR IS ASSURED OF HER TRIP TO QUEBEC

Donation For Transportation Expenses Comes Through B. C. Badminton Association

JUNIOR BOARD ASSISTS

Kelowna Girl Will Make Her Second Bid In Two Years To Capture Dominion Title

Miss Margaret Taylor, British Columbia badminton champion, will travel east next month in search of Canadian honours, it has been definitely assured this week. There was doubt expressed in some quarters last week that the necessary funds would be forthcoming, but these fears have proved groundless.

News was received on Tuesday that a generous amount of money is being subscribed towards Miss Taylor's travelling expenses through the British Columbia Badminton Association. It is understood that a portion of this money comes from the Dominion Association.

The Junior Board of Trade, at a hurried Executive session on Tuesday evening, decided in favour of guaranteeing the balance of Miss Taylor's travelling expenses. In order to raise this money, arrangements are being made to stage a special show at the Empress Theatre about March 1.

Miss Taylor and Johnny Samis are the two first-string players chosen from B.C., who will be given first choice.

Daphne Fernie, of Kamloops, and Eric Leney, of Duncan, are second-string. If Miss Fernie cannot make the trip to Quebec, then Mrs. Leney (formerly Miss Norie, of Duncan) will be chosen to make the trip.

SHOW BUILDING REQUESTED AS BOYS' GYMNASIUM

Use Of Premises Proposed As Recreation Room And To Keep Lads Off Streets

The Exhibition Building, a slightly structure in the heyday of its youth but now somewhat frayed and shabby, has played many parts since the Agricultural Society ceased to function, having been used in turn as a badminton hall, a tobacco curing shed, an art gallery, and roller skating rink, and there is a possibility that it may enter upon a further career of usefulness, if the City Council grants a request made by Mr. C. Whattman and associates for its use as a gymnasium for boys.

Mr. Whattman and Mr. D. D. Ellis appeared before the Council at the regular meeting on Monday night, to support a written application previously made by Mr. Whattman, in which he stated that it was desired to obtain use of the building as a recreation centre and gymnasium for boys, for which purpose it had not been possible to secure a hall because of lack of funds.

The movement had been started last summer, when sixty boys turned out for junior baseball, and the boys needed a place in which to train for sport the year round. The aim of the promoters was to keep the boys off the streets and to teach them clean, healthy sport. They had several good instructors who were willing to give their services to the cause. It was the intention to have a man in charge every night, each instructor giving one night a week.

Careful consideration of the request was promised by Mayor Jones on behalf of the Council.

Kelowna's Share Of Library Budget
Notice was received from Miss M. Page, Secretary, Board of Management, Okanagan Union Library, that the sum chargeable to the City of Kelowna as its share of maintenance of the Library for the year 1938 is \$1,862.

Lease Of Lots
Lots 15 to 18 and 28 to 35, in R.P. 69, were rented to Mr. William Blackwood until Dec. 31, 1938, for pasturing purposes only, at a rental of \$10, on condition that any sod or turf on the said property is not damaged or destroyed, and with the usual reservation of right of sale by the City at any time without rebate of rental.

Preventorium Asks Increase In Grant
A letter from the Gordon Campbell Preventorium requested consideration of an increase in the annual grant from the City this year, as the Directors were anxious to have the premises completed and placed on a more permanent basis.

Newly Wed Egyptian Royal Couple

Egypt's 17-year-old King Farouk posed for this picture with his 16-year-old bride, Farida Zulficar, shortly after the wedding ceremony, in which she did not participate. Moslem custom required her to remain apart while her father went through the ritual with the King. The dark-eyed young Queen is seen in her \$25,000 wedding dress.

Tribute Paid To Late Conservative Chief By Prominent Members Of Leading Provincial Political Parties

Provincial Liberal Head States Opposition Leader's Death Great Loss To Province

Three splendid tributes to the sincerity and ability of the late Dr. Frank P. Patterson, Conservative party leader, have been received voluntarily from prominent citizens of differing political faiths in Kelowna.

"In his passing, British Columbia has lost one of the most valuable citizens and the medical fraternity one of its brightest lights," is the glowing tribute of Dr. W. J. Knox, President of the British Columbia Liberal Association.

Dr. Knox's tribute is contained in the "Letters to the Editor" column on Page 6 of this issue.

Mr. E. C. Weddell, President of the South Okanagan Conservative Association, and Mr. H. B. D. Lyons, Kelowna and District Conservative Association, President, have added their praises of one who was honoured and respected throughout the province.

H. B. D. Lyons' Tribute
Dr. Patterson's death, coming at a time when leaders of understanding are urgently needed, is a great loss to British Columbia.

Having arrived at the top of his branch of the medical profession, he realized that there was still greater work to be done.

He had the greatest sympathy, not only for the physical sufferers, but also for those who suffered from the depression conditions in the country.

He felt that some of these conditions were due to errors of government, and believed that he could help to rectify some of these mistakes.

That his life was shortened by his work before he had time to more than start, is of the deepest regret, and we trust that his example of self sacrifice may inspire others to carry on the work he had so unselfishly begun.

H. B. D. LYONS
President, Kelowna and District Conservative Association.

E. C. Weddell's Message
The loss of our Provincial Leader, Dr. Patterson, is indeed a most severe one to us, but it is also a very great blow to our Province and to Canada, both in his professional capacity and in the public and political life of this country, in which he so recently assumed such a prominent place.

When in the summer of 1936 we succeeded in having him accept the leadership of our Party, we were delighted to have one in that position who had accepted it guided by such high motives, because it was so potent to all that his assumption of the onerous position called for such a personal and financial sacrifice on his part, to give up so much time from his busy profession and from the right to enjoy some of the leisure he had so well earned. These are very trying and worrying times to men in public life and that Dr. Patterson was willing

To whom local political heads pay sterling tribute.

to give his utmost toward a solution of these tremendous problems so conounding to the body politic, speaks more eloquently than any high sounding words of what he conceived as "Service". Never more than now was the need greater for men in our public life, imbued with the high principles of Dr. Patterson. The fact that he accepted the call is an inspiration to other men in similar circumstances, and if they will only heed it, then we need have no fear of the morrow. We extend our deepest sympathy to Mrs. Patterson and her family at this very sad time.

E. C. WEDDELL
President, South Okanagan Conservative Association.

GREAT MASSES DO NOT WANT CONFLICT

VERNON, Feb. 17.—That the great masses of the Japanese people have been forced into the present conflict with China, much against their will, by the small military clique, was the highlight of a stirring address given before members of the Rotary Club on Monday last by Miss Helen Hurd, for 26 years a missionary and teacher in Japan, who is now on furlough.

Miss Hurd is at present visiting here, the guest of her sister, Mrs. A. S. Hurlburt, who was present at the luncheon. On Sunday morning, Miss Hurd spoke in the United Church.

"Ten per cent of the Japanese want war, want to subjugate and rule the other ninety per cent, and are doing it because they have guns," Miss Hurd declared.

SALES TO EAST PICK UP WITH DROP IN PRICE

Cut In Freight Rates And Price Of Apples Has Marked Effect

"VERY SPLENDID BUSINESS"

Advertising Campaign In East Is Expected To Be Quite Beneficial

A combination of events has, within the past few days, brought a much more active situation into being, so far as the movement of apples from the Okanagan to the principal marketing centres is concerned.

A reduction granted by the railways on freight rates, coupled with a reduction on prices set on the fruit, and the launching of an advertising campaign in Eastern Canada, are the factors that have led to a considerably increased sale.

While still emphasizing the critical character of the deal, in which a large stock of apples remains unsold, members of the one-desk selling committee on Wednesday in Vernon reported that the opening of the present week had been characterized by "very splendid business."

In fact, the volume of marketing on Monday, the day on which the reduced railway rates went into effect, was the largest recorded in any one day since the one-desk scheme was commenced. On that day sales ran as high as 14,000 boxes. Shipments of fruit, it was reported, continued fairly well in line for the following two days.

There has been one unfortunate development that has not aided sales. It has been the turn of the weather on the prairies to the coldest temperatures so far this year. Had it not been for that fact, the recent up-turn in fruit business would no doubt have been even greater.

Commenting on the changes in freight rates, members of the one-desk scheme declared that they were "very thankful for any help." They acknowledged that the cut in rates had helped to stimulate business. But they did not conceal that they were also somewhat disappointed. "It does not seem that the reduction is in keeping with the emergency of the situation," was the comment by which the situation, in general, was summed up.

The new prices on Okanagan apples, applying to Western Canada, have been announced by the B.C. Fruit Board as follows:

McIntosh, 113 and larger, 90c Fancy; 125 to 138, \$1.10 Fancy. Delicious, 100 and larger, 90c Fancy and 75c Cee; 113 to 138, \$1.05 Fancy and \$1.00 Cee. Newtown, \$1.30 Extra Fancy, \$1.15 Fancy, \$1.00 Cee. Stayman, \$1.40 Extra Fancy, \$1.15 Fancy. Golden Delicious 90c Fancy. Rome, wrapped, 85c. F. & J. 75c. Prices in B.C. are: Delicious, 88 and larger, 85c Extra Fancy; Golden Delicious 90c Extra Fancy; McIntosh, 100 and larger, 85c Extra Fancy. Rome are priced at 5c a box less than the prairie quotations.

Certain grades and sizes of varieties not regularly in demand on the prairies are being offered at reductions in Eastern Canada.

The advertising campaign for Eastern Canada has gotten under way. It will be of somewhat greater extent than was at first hoped for, and the expense will be borne by the markets bureau of the Dominion Department of Agriculture. It is expected that it will reach from \$6,000 to \$7,000 instead of \$4,000, as announced last week.

Meanwhile it is understood that Tree Fruits Limited, here in the Okanagan, is considering a new campaign to stimulate interest in purchasing apples, through advertising, on the prairies.

As stated tentatively in last week's issue, the reductions in freight rates to various eastern points are as follows: Eastern Canada, from \$1.50 to \$1.25; Fort William, Port Arthur, from \$1.28 to \$1.15; Winnipeg, Regina, from \$1.13 to \$1.00.

To any other points where the rate is more than \$1, a reduction to \$1 has been made.

PLANTS SUFFER BY OUTBREAK OF FIRE IN GREENHOUSE

Furnace Room Of S. J. Weeks Greenhouse Burns While Temperature Is Frosty

An outbreak of fire at 5:35 a.m. on Wednesday in the furnace room of the S. J. Weeks Greenhouses gutted the room and did considerable damage to the adjoining glasshouse, which contained a quantity of early spring plants, and many of these suffered injury through exposure to the frosty air.

Although the premises are situated in Woodlawn, outside the city limits, the Fire Brigade answered the call for aid and did what they could to save the buildings and contents. They extinguished the flames, plugged all the holes they could find and relighted the furnace fires in an effort to save the delicate plant stock.

No estimate of the loss is yet available.

LUMBY HUNTERS KILL LARGE COUGAR AT MABEL LAKE

LUMBY, B.C., Feb. 15.—Adding to their prowess as cougar hunters, the Hines brothers, Bernard and Ernest, of Sugar Lake, killed a large cougar last week at Mabel Lake, measuring ten feet, one inch from tip to tip.

Hospital Needs New Wing But Is Not In Position To Finance

Modern Unit Would Cost About \$50,000, At Least, But Hospital Society Will Be Hard Pressed To Finance Additional Operating Costs, Let Alone Taking Over Burden Of Interest And Sinking Fund—Believe It Is Duty Of City And Provincial Governments To Provide Building Money

"INCREASED accommodation is a problem which will have to be solved in the very near future. Fortunately, this is not our problem alone. To my way of thinking, the equipped new wing is the responsibility of the Provincial and City Governments and the operating of same that of the Kelowna Hospital Society."

Thus, in a few short words, did President D. K. Gordon sum up the opinion of the Board of Directors of the Kelowna Hospital Society when reporting to the annual meeting, held in the Royal Anne Hotel on Friday afternoon, with about thirty persons in attendance.

New Wing Costly Affair

Later, in discussion, the figure of between \$60,000 and \$100,000 was mentioned as being a likely expenditure for a new modern hospital unit, such as is required in Kelowna, but other members of the Hospital Board have expressed their opinion that the unit could be erected for between \$40,000 and \$50,000.

"The health of its people is any Government's first consideration," commented President Gordon. "Sickness comes about often for the lack of adequate health measures. Let me give you an illustration. Kelowna put in a full-time medical unit. Today, the Isolation Hospital provides sleeping quarters for nurses and the Provincial Laboratory. The average stay per patient in the Hospital used to be 30 days, and now the average is 12 days. Is that not a real economic value?"

"Revenues cannot be greatly improved by increasing our charges. Surely we have come to realize that, sick person is under a handicap, and will be for some time during convalescence, and the time to pay is not when sick but rather, when well. Social adjustment covering this situation is a national necessity. We are fortunate in this district by your Hospital providing you with hospitalization at the low cost of \$1.00 per month on a voluntary basis. No one can afford to be without this insurance."

Successful Operation

At the outset of his remarks, Mr. Gordon stated that the successful operation of the Hospital was made possible by a number of factors, as follows:

"Every Director accepted his and her full share of the work and the responsibility of office; Mrs. Wilmot and her staff gave their best in services and co-operation; the new Secretary-Treasurer, Mr. P. E. Russell, proved his worthiness of the appointment given him; there exists between the Medical Staff and the Hospital mutual co-operation of the highest order; Mr. Dave Chapman again served on the Hospital Insurance Committee; Mr. Fred Gore, Deputy Fire Marshal, gave fire drills and advised us in our work on fire protection; Mr. Rutherford did the auditing at cost and assisted us in many ways with his advice; the Press was generous to us always; the clergy, relatives and friends visited the sick; the W.A. and the Girls' Aid again did splendid work. Women's Auxiliaries have been in existence in Canada for 75 years, giving steadfast and sympathetic co-operation in this noble and necessary work; many gave their

When the news spread round the city this week that Sergeant A. Macdonald, commanding the Kelowna detachment of the British Columbia Police, was to be transferred to North Vancouver, general regret was expressed, as the genial Highlander has won many friends by the fair and just manner in which he has carried out law enforcement within the city, with an eye ever to the prevention of crime and keeping the town free of undesirable characters. It was the general hope that the authorities would change their minds and permit Sergeant Macdonald to remain here, and this has actually happened in that the transfer has been postponed for a time, but for how long no one knows, nor is there any information obtainable as to the name of the Sergeant's successor.

Sergeant Macdonald is in Kamloops today, but possibly his return something definite will be learned as to whether the proposed transfer is to go into effect and when.

Loath To Lose Popular And Efficient Police Chief

THE KELOWNA COURIER

AND
OKANAGAN ORCHARDIST

Published Thursdays by The Kelowna Courier Limited
Edited by G. C. ROSE

The COURIER does not necessarily endorse the sentiments of any contributor's article. To ensure acceptance, all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred. Amateur poetry is not published. Letters to the Editor will not be accepted for publication over a "non de plume"; the writer's correct name must be appended. Contributed matter received after Tuesday night may not be published until the following week.

As the staff works on Thursday afternoon, The Courier Office is closed on Saturday afternoon for the weekly half-holiday.

THURSDAY, FEBRUARY 17th, 1938

Additional School Accommodation

The question of adequate school accommodation for Kelowna is a problem that recent efforts at extension and addition appear to have failed to solve. It was supposed that a feasible solution was offered when the method was commenced two or three years ago of levying a special rate of one mill annually, the funds thus provided to be accumulated until required for building purposes. It was by this means that the addition to the Junior High School was made last year without the necessity of resorting to an issue of debentures. One mill, however, only provides about \$2,500, and the rate of accumulation of a building fund is too slow to meet the steady annual increase in school population, so long as the structures erected for educational purposes continue to be of the expensive type of construction that has been employed during recent years.

There are 1,209 pupils enrolled in the Primary, Elementary, Junior High and Senior High Schools of Kelowna. The value of school properties is carried in the civic ledgers at \$128,502.10, being \$26,435.78 for sites and \$102,067.32 for buildings, so that the investment per capita of school population works out at about \$106.28, or \$3,719.80 for a class of thirty-five pupils, which is probably an average, although the size of the classes varies greatly according to grades. The addition made last year at a cost of about \$12,000 provided only two extra classrooms, a study hall, library and school office.

The question arises whether the style of construction adopted in Kelowna is too costly. Two-story brick or brick veneer buildings are expensive and involve much wasted space in stairways, passages and halls, and danger to pupils in the event of fire must be reckoned with, even with frequent fire drills and other precautions.

The quadrangular scheme of construction, adopted centuries ago and followed ever since by universities and colleges, is worthy of investigation. One-story buildings of lumber and stucco construction of Tudor period design upon a concrete foundation, laid out on the plan of the letter E, would be both sightly and durable, would require no painting of the walls, and their design would permit of convenient additions being made as required, the expenditure to be met from current revenue and the special school buildings rate of one mill. Abolition of staircases would obviate practically all danger to life from fire, besides saving much space and permitting much more rapid assembly and change of classes. When an addition was necessary, it would not be costly and there would be no occasion for any prolonged argument over it between the School Board and the City Council.

It will be remembered that the ratepayers of Vancouver became so fed-up over the high cost of school buildings in that city that for a number of years they defeated every building by-law submitted to them for approval, and the Vancouver School Board was forced to resort to all kinds of expedients to house the ever growing army of pupils, erecting all sorts of unsightly and flimsy shacks in school yards. It is not suggested that any shack style of construction be followed in Kelowna. As a matter of fact the Tudor half-timber style is much more artistic in stucco than brick or brick veneer and is certainly just as staunch. Our proposal simply is that the School Board investigate the possibilities of abandoning the traditional type of two-story school structure in favour of the one-story quadrangular system of less costly construction.

The scheme of extension and renovation formulated by the School Board as this year's building programme will involve an expenditure of about \$50,000. A Government grant may reduce the City's share of the cost to about \$40,000, but such an amount cannot be met out of current revenue and it will be necessary to make an issue of debentures, a policy distasteful to the City Council as well as many citizens, who see much to admire and support in the policy of "pay as you go," with its elimination of the heavy cost of interest and sinking fund charges. Probably there is little likelihood of the ratepayers of Kelowna defeating a money by-law for additional school accommodation, although such has happened in the past, but it would be much more popular and have a more certain prospect of success if it provided for a type of construction that would permit of any necessary additions being met out of current revenue and the special one mill rate.

Need For Improving Quality Of Products

A former resident of the Kelowna district, now farming in Saskatchewan, discusses marketing problems in a personal letter to the editor of The Courier and takes occasion to criticize severely the lack of quality of some Okanagan products. He says in part:

"According to the press, the fruit growers are having their perennial battle but, instead of a fight among themselves, it is this year one with the tariff. I might be called a pessimist or else, being a drought-stricken farmer with a possibility of hardening of the brain, I may be called a lunatic, but I see very little hope of a bright future for the fruit-growing industry under the present system of marketing.

"Tariffs and marketing legislation may temporarily alleviate the situation, but they are not a panacea for all ills, judging by the experiments of our neighbours to the south of the 49th. The tonnage of fruit produced in B.C. is yearly increasing and out of pro-

portion to the increase of the purchasing power of the domestic market, which is the grower money-making market. Even given improved economic conditions, the increase in population of the prairies, your best customer, is not in ratio to the increase in production of fruit. So, unless some unforeseen catastrophe happens that would destroy half the acreage in orchard today, the problem of marketing your surplus fruit will shortly be an impossibility, even for the most efficient Fruit Board.

"There is far too much low grade fruit allowed to leave the Valley. It would be to the benefit of both grower and consumer to have the sales restricted to Extra Fancy, Fancy and C's and eliminate from the market all the low grade fruit which does not bring any repeat orders and interferes with the sale of good fruit.

"Instead of creating elaborate marketing legislation and depending on tariff protection for profitable returns, growers would be well advised to divert their attention from the top of the ladder and concentrate a little more on strengthening the bottom rung. They should apply for legislation prohibiting the distribution of poor fruit, fruit coming from neglected orchards, improperly pruned, unfertilized, poorly irrigated or afflicted with any disease affecting the quality of the product.

"We are living in an age of standardization, be it for products from the farm or from factories; record of performance as well as appearance are factors to establishing a price, be it a car, a radio or a suit of clothes. Eggs are graded to weight, shape and degree of freshness; price of milk and cream is based on acidity and butter-fat content; wines and liquors are sold on age and alcoholic contents; meat is graded on the rail; fowls are dressed and graded according to finish of flesh and appearance, etc., etc. So the time is near when fruit will be sold, not on colour and shape, but on the value of its sugar content or some other means of guaranteeing a fixed standard of quality. It would eliminate the problem of a surplus for a long time to come, as only the true fruit grower, the man who devotes his care, attention and capital to his end of the business would be the only one enabled to dispose of his produce. It would be a question of the survival of the fittest, and the lazy, careless and indifferent grower would be eliminated from the business to the benefit of his fellow grower. And the consumer, in whose hands, after all, the grower's destiny rests, would have the satisfaction of being able to buy a product of guaranteed quality: you know the saying about a satisfied customer. Under present regulations, one buys fruit because it is part of one's diet, but, after purchasing a box of apples with the flavour of a turnip, one turns to some other sources of vitamins, oranges, bananas, etc., or does without any fruit, if he cannot satisfy his taste, in spite of any legislation. I might add a personal experience that I had last summer. I bought a case of canned tomatoes, put up in the Okanagan, and the first warm day I expected to quench my thirst with a dish of cold tomatoes. There was not any more flavour to the fruit than there is to an ounce of Scotch drowned in a gallon of water, and the two dozen cans proved to be as tasteless as the first one. I'll never buy another can of that brand of tomatoes as long as any other brand is available."

These complaints as to lack of quality raise a serious question that must be taken to heart by grower, packer and canner alike, as continuance of sale of such poor material will have a most deadly effect upon the prairie market.

Weekly Book Review

(Books reviewed in this column may be obtained at the Kelowna Branch of the Okanagan Union Library, and probably at other libraries in this district.)

"ACT OF GOD," by F. Tennyson Jesse. Heinemann, 1937.

Miss Tennyson Jesse's latest book is a difficult one to classify, but a very entertaining one to read. It is not a love story, though there is much about love, nor an adventure story, though there is plenty of action. The scene is the Riviera, the chief characters, a French priest and an English colonel. Between these two, so different in their outlook on life, and further divided by religion and race, there exists a warm friendship, brought about mainly through a common passion for truth and a love of antiquity. The cure's chief interest is the writing of a book on the medieval heresies of Provence, while the Colonel, an atheist himself, spends his leisure hours studying the religions of the Mediterranean basin.

The action of the story concerns the miracle which brought the sleepy little town of Vieux Fraxinet into sudden prominence. From being a haunt of peace to seekers after solitude, it became almost overnight a place of pilgrimage. Thousands of people toiled on foot up the steep mountain paths, and shops filled with tawdry rubbish surrounded the place of the alleged miracle.

Then came Vera Fanshawe, a cousin of the colonel's. Her character is drawn by Miss Tennyson Jesse with this author's usual acid and uncompromising pen—she has a cruel eye for the mannerisms and foibles of the human race, and Vera Fanshawe is an excellent portrait of all the things her creator dislikes most. With Vera's arrival, life became increasingly hectic for everyone concerned. The miracle ceased to be a miracle, though to say how this came about would spoil the story for those who haven't read it.

The climax is dramatic, though not as convincing as the rest of the story. Lightly told, ironical in tone, this novel manages to have substance and quality—there is great beauty of thought and style, weighted perhaps at times with a deep world-weariness. It is a novel to read for entertainment, for mental stimulation, and for a refreshing change from the usual every-day-ness of our modern world.

AFTER TODAY — TOMORROW

That which lies just around the corner, that which is still hidden by the impenetrable veil of the future, is the thing that keeps us alive and fresh and young and interested. And those who have been fortunate enough to make that discovery need not go in search of the fountain of youth in some distant El Dorado. They carry youth itself in their hearts.—Hendrik Willem van Loon, author and historian, in the Rotarian Magazine.

COURTESY IN BUSINESS

Courtesy is the grease that oils the machine of business. Courtesy is not lip service. It's merely treating the other man as you'd like to be treated. There must be sincerity behind your courtesy. You must feel it.—John R. Tunis, author, in the Rotarian Magazine.

Lloyd George Still Swings A Hefty Golf Club

David Lloyd George, former British Prime Minister, on holiday in France, takes a lusty swing at a golf ball. What probably is just as important—he smacked it out of the rough in a nice shot to the green. His daughter, Megan, acts as his caddy. Lloyd George's family gathered recently at Cap Antibes, France, to celebrate the father's and mother's gold wedding anniversary and the statesman's seventy-fifth birthday. "Golfing," he said on that occasion, "is good training for politicians."

Kelowna In Bygone Days

(From the files of the Kelowna Courier)

THIRTY YEARS AGO

Thursday, February 13, 1908

"Messrs. Hewston & Mantle sold two lots on Abbott Street last week for residential purposes at handsome figures."

"The attendance report of the High School for the month of January shows perfect attendance by 17 scholars out of a total enrolment of twenty-three."

"There was no quorum of the City Council on Tuesday, and, after waiting an hour for the missing aldermen, the members present dispersed without any business having been transacted."

"A petition is being circulated, asking the Chief Commissioner of Lands and Works to extend Bernard Avenue east to the Dry Valley road. This is a most desirable improvement and will shorten the present route via Dry Valley to Vernon by about a mile and a half, giving the Dry Valley settlers a better as well as quicker road to Kelowna. The petition is being largely signed."

The average attendance at the Public School during the month of January was 155.9.

TWENTY YEARS AGO

Thursday, February 14, 1918

"Pte. R. Fuller returned from Vancouver on Thursday. He has received his discharge."

Kelowna Creamery butter took first prize for prints and third prize for solids at the annual competition held in connection with the convention of the B.C. Dairymen's Association, at Chilliwack. At the 1917 convention, held at Nanaimo, the Kelowna Creamery was awarded first prize for prints and sixth prize for solids.

Only five cities in the province, outside of the Vancouver district, purchased a larger amount of Victory Loan bonds than Kelowna. The figures for various provincial centres were: Nanaimo, \$427,150; Nelson, \$394,200; Fernie, \$337,600; Kamloops, \$259,000; Vernon, \$235,300; Kelowna, \$209,400; Prince Rupert, \$201,700; Cranbrook, \$190,100; Rossland, \$151,550; Anxox, \$149,850; Revelstoke, \$138,700; Princeton, \$109,250; Ladysmith, \$107,100; Powell River, \$100,364; Penticton, \$95,650. The amount subscribed in the city of Vancouver was \$7,299,478, while New Westminster and district ran to \$1,432,600, and Victoria and district, \$3,681,375. The total for the whole province was \$18,814,592, which was subscribed by 50,563 people. The number subscribing in Kelowna was 879.

As a result of an energetic campaign for funds, the Kelowna branch of the Prisoners of War Fund was able to report receipts for January totalling \$147.05.

TEN YEARS AGO

Thursday, February 16, 1928

"Mrs. D. Soames has sold her East Kelowna property to Mr. R. F. Borrett, of Regina, who has taken possession."

"It will be of interest to local anglers that Mr. J. C. Clarence, of Okanagan Mission, reports the capture by him and his son of two Eastern brook trout in Okanagan Lake. The catch was made near the mouth of Cedar Creek, each fish weighing three pounds. It will be recollected that Eastern brook trout eyed-eggs were planted twice in Mission Creek, Bear Creek and other streams flowing into Okanagan Lake by the Department of Marine and Fisheries, and the question as to whether the resulting fry would or would not make the lake their habitat was much debated."

"The remote control broadcasting apparatus for use in connection with local radio station 10AY arrived from the Coast last week and was installed by Mr. Roy R. Brown, the Vancouver expert who had undertaken the contract. A trial broadcast was made on Thursday evening from the First United Church, and local listeners heard a vocal solo by Mrs. J. H. Trenwith, several organ selections and some choral

singing. While, of course, very loud and somewhat harsh, the broadcasting was quite good for the first effort and gave promise of excellent results with more practice and experience. On Sunday, both the morning and evening services at the First United were broadcasted. The volume in the morning was rather too loud, owing to the microphone receiving too much amplification, but this was rectified in the evening and local radio enthusiasts were able to tune down the reception to a reasonable degree."

In celebration of his twentieth year of service in the Kelowna Volunteer Fire Brigade and his election as Chief for the ninth year in succession, Mr. J. D. Pettigrew was entertained to dinner at the Eldorado Arms on Feb. 10th by the members of the Brigade.

The capacity of St. Michael and All Angels Church was taxed to the limit by the large congregation which attended a special memorial service on Sunday, Feb. 14th, in honour of the late Field Marshal Earl Haig. An eloquent sermon on the duty of service, with a eulogy of the departed commander, was preached by the Rector, Rev. C. E. Davis.

At the first annual general meeting of the Kelowna Branch of the Automobile Club of British Columbia, held on Feb. 9th, the following officers were elected for the ensuing year: Chairman, Mr. K. MacLaren; Vice-Chairman, Mr. R. S. Moe; Honorary Treasurer, Mr. H. Preston; Directors, Messrs. J. Dayton Williams, B. McDonald, O. L. Jones and H. Lee; Kelowna; W. J. Coe, Winfield; T. G. S. Chambers, Belgo; St. G. P. Baldwin, Okanagan Mission; A. H. Shaw, East Kelowna; W. Buchanan, Peachland, and E. C. Maile, Okanagan Centre.

The following officers for the current year were elected at the annual meeting of the Jack McMillan Chapter, Imperial Order of Daughters of the Empire, held on Feb. 14th: Regent, Mrs. A. C. Poole; First Vice-Regent, Mrs. F. R. E. DeHart; Second Vice-Regent, Mrs. W. Lloyd-Jones; Secretary, Mrs. R. Bruce Deans; Treasurer, Mrs. S. M. Simpson; Educational Secretary, Mrs. J. H. Trenwith; "Echoes" Secretary, Mrs. R. S. Moe; Standard Bearer, Mrs. G. Chaplin; Counsellors, Mesdames J. W. Jones, S. Gray, A. J. Hughes, W. F. Hopkins and F. B. Lucas.

Reports submitted at the annual dinner-meeting of the Kelowna Creamery, Ltd., held in the Lakeview Hotel on Feb. 3rd, revealed a wonderful improvement in the financial position of the company during 1927, with slightly over 40 cents per pound paid to farmers for butter-fat as against 38 and a fraction in 1926. "At the end of 1926 the liabilities were greater than the current assets, with cheques issued and no credit at the bank and indebtedness past due. A number of matters of long standing had been settled during the year; plant and equipment had been depreciated 20 per cent, the loss of \$1,032.09 being absorbed; yet a dividend of six per cent had been declared and a surplus of \$149.84 carried over to 1928. As a result of a ballot, the retiring Board of Directors, Messrs. W. R. Powley, A. L. Ross, J. Spall, W. R. Barlee, Geo. S. McKenzie, H. F. Rees and D. K. Gordon, was re-elected en masse. At a subsequent meeting of the Board, the officers for 1927 were re-elected, including Mr. Powley, President; Mr. Rees, Vice-President, and Mr. Gordon, Secretary-Treasurer, these to form the Managing Executive.

"APPLE WEEK" DRAWS OKANAGAN AND VANCOUVER TOGETHER (Vernon News)

Apple sales to the Coast nearly tripled during the course of "Apple Week," according to the report given not only by the trade at Vancouver but also by the "one-desk" organization in the Okanagan. This is proof that the venture was a success, and it demonstrates the stimulus to sales that can be engineered by a valuable publicity campaign.

There are many to whom the thanks of the Okanagan should be extended, but those who have observed the developments closely are unanimous in paying an outstanding tribute to A. C. Foreman, Chairman of the B.C. Products Bureau of the Vancouver Board of Trade. Some months ago Mr. Foreman visited the Okanagan. He became more than ever convinced that Vancouver buyers should be made aware of the value of supporting a great B.C. industry. And he set to work along lines that soon

Points of View

APPLE INDUSTRY

(Vernon News)

Information regarding apple prices, sales, stocks, and market conditions are "hot" news in the Okanagan. Too often the shippers and the Tree Fruit Board overlook this fact. Sometimes shippers act as though fruit consigned to them, or on which they have made advances, is their private property. They treat the growers and through them the general public as if no one had any right to know anything about the prices, stocks or terms under which fruit is sold or offered for sale.

About two weeks ago, gentlemen representing the marketing end of the fruit deal held a meeting in Kelowna. They have from time to time held such conferences, often without informing the newspapers, who represent the public. On this occasion representatives of the Penticton Herald and the Kelowna Courier sought admission. This was denied except on terms to which no self-respecting newspaper will agree. They asked for submission of reports to members of the group who may or may not know news when they read it in type. Later the fruit men offered to issue a statement following the meeting. Finally they declined even to do this—but somebody talked.

The resulting situation, with the fragmentary reports published, is unsatisfactory to the growers, shippers and the general public, whose course is bound up with the prosperity of this great industry. Suspicion has once again been engendered. This does the industry no good.

For some time there has been good feeling on the part of growers, shippers and members of the Tree Fruit Board. It has been generally agreed that all, whether competent or incompetent, are working for one purpose and towards a common goal. Now there is considerable danger the accord will disappear.

The thought has been planted in many minds that there is something the shippers wish to have hushed up and that something has to do with the amount of money they will return to the growers after they take out their whack for the packing and disposal of the crop. Possibly some one company or individual sought advantage over the others? Anyhow the accord has sustained a shattering blow. It may be the underlying cause is the shadow of impending low returns.

To prevent any widening of the breach and to prevent the spread of suspicion it is suggested the Okanagan fruit industry adopt the course generally followed elsewhere with success. This is to allow the newsman access to everything and leave it to their common sense whether or not publication will be harmful or helpful. Seldom has anything but benefit resulted from such a course.

PROTESTS SHUTTING OF DOOR TO PRESS (Penticton Herald)

Behind closed doors, at Kelowna, prominent shippers of the Okanagan decided what disposition would be made of the remainder of the 1938 apple crop which is causing sales executives such a headache. By a vote of the meeting, on a motion presented by Joe Montague, of Vernon, the press was excluded.

Just what actual conditions are, which suggestions were made and what the arguments, pro and con, were, may never be known. The shippers agreed to issue "a statement to the press" following the meeting, a statement which would tell, obviously, what the shippers wanted to tell the growers. The grower pays for his ranch, pays the cost of growing the fruit, pays the shipper for handling it, and then the shipper dictates as to what information the grower shall get regarding disposition of his crop.

Mr. Montague stated that it would not be good business for the prairie trader to know what actual conditions are and what stocks remain, and so on. The trade on the prairies and the citrus fruit men know more about the Okanagan and its fruit than the Okanagan shippers do themselves. Yet such a flimsy excuse was used to bar the press from a meeting which was of vital interest to every grower in the Okanagan Valley.

The B.C.F.A. meets in annual convention every year, passes resolutions by the score and then the growers, who are, in effect, the B.C.F.A., allow a small group, which is actually composed of the paid employees of the growers, to dictate to them.

Packing charges have long been known to assume more importance to the packer than the growers' interests. And, naturally so. But there is no reason for the grower to allow himself to be placed where he loses what is rightly his. The grower is entitled to know every move in regard to his crop, every matter which is taken into consideration. The only way the grower can know is through the press. The press furnishes the only unbiased report obtainable. Yet the press is excluded from meetings which are of the most vital import to every producer in the Okanagan Valley.

What is it that the shippers are afraid of? Why do they exclude the press? Mr. Montague's excuse about letting out information to the buyers does not even merit consideration.

Shippers control the deal. Shippers comprise the one-desk organization. And shippers insist on giving their own version of affairs to the growers.

We are at a critical stage in the marketing of the 1937 crop. We have nearly 900,000 boxes for a market which will probably not absorb more than 600,000 boxes.

Of the Valley's 900,000 boxes, about 600,000 are wrapped and 300,000 loose. Such loose apples as Face and Fill Rones are priced at 70c f.o.b., bringing about 30c to the grower.

Shippers are said now to favour reducing such wrapped apples as extra fancy Delicious to \$1 f.o.b., which means a reduction of 40c per box. The grower would get about 45c instead of 85c. Shippers' desire to cut the wrapped prices is because of orange competition. They would presumably take the unwrapped off the market and prepare to dump them.

Chairman Haskins of the Fruit Board believes that the wrapped prices can be maintained so long as the low priced unwrapped apples are out of the way. He says that apple sales are being maintained and it should be possible to sell 600,000 boxes of wrapped without sacrifice. Better dump the 300,000 boxes of unwrapped and lose \$90,000 for the growers than cut the wrapped by 40c, thus losing \$240,000 for the growers with also the likelihood of the \$90,000 unwrapped loss in addition.

Perhaps the government can be induced to make another purchase of apples and help the situation out. Possibly the canneries would take a supply.

Growers can only get these facts when the press are present at the meetings in which the fate of growers' fruit is decided.

were to include a great many organizations and persons of importance in the Coast metropolis.

Mayor Miller, the Senior and Junior Boards of Trade, service clubs, women's organizations, U.B.C. speakers—these and many more sources of influence gave readily of their support. The press offered generous publicity. "Queen" Isobel Stillingfleet was a "headline" performer whose skill in packing apples and whose attractive personality did much to ensure success. To mention all to whom credit is due is impossible. The simple and very gratifying fact appears to be that everyone seemed pleased to join in an effort that was of benefit to the Okanagan.

So the Okanagan people, these days, are feeling very cordial towards those who live on the lower mainland. They are thankful for the interest that was shown in their chief product, the apple, and they are bold enough to look forward to the day when Vancouver's steady consumption of that fruit will be three times what it now is—the whole year round.

GROWERS' MEETING

MASS MEETING

of Growers and all others interested in the Fruit Industry will be held

at the ODDFELLOWS' HALL, Kelowna

on

TUESDAY, FEB. 22

at 8 o'clock;

to discuss the marketing situation and the outlook for the remainder of the season.

All growers should attend this meeting and learn at first hand what is being done by those responsible for the marketing of their product.

NO LARGE SUMS WERE SPENT ON HOSPITAL IN '37

Only Minor Improvements Were Made To Buildings During Last Year

Water seepage into the basement of the Nurses' Home has caused the Buildings Committee no little trouble. Mr. J. H. Broad, Chairman of that Committee, told the annual Hospital Society meeting. This condition, which exists each spring, will have to be remedied at once or the foundations will rot away. Following is Mr. Broad's report:

"Your Board has found that during the past year it has not been necessary to spend any large amount of money on the main Hospital building. The Hospital now, with past improvements, is as complete as a building of its kind can be made.

"We have, however, rebuilt the main cold storage box which is now working much more efficiently.

"We have also done a considerable amount of painting this year in wards and basement hallways.

"Extra house telephones have been installed in order to facilitate the service.

"Periodical checks have been made on all wiring and electrical fixtures. This is a policy that has been adopted insuring against leakage and fire.

"A great benefit and comfort is being felt through having had the building stuccoed and the roof insulated.

"The exterior of the isolation building has been scraped and sanded, and given two coats of paint, which will preserve the building and improve its appearance.

"For the past few years your Board has had under consideration the remedying of a water condition that exists, over a period of months each spring, in the basement of the Nurses' Home. Conditions were such that we thought it advisable to bring a water-proofing expert from Vancouver. This work is going to mean quite an expenditure of money and it must be done as soon as weather conditions permit, as it has been found the wooden supports carrying the floors of the building are rotting at the base from the seepage.

"Another item of expenditure in the near future will be for a building for a work-shop and common storage; also, the replacement of some of the laundry machinery.

"The grounds in front of the hospital have been kept in excellent conditions and considerable clearing and cleaning has been done at the rear.

"In closing my report, I would like to mention the splendid co-operation of the President and all members of the Board—this has made my work very pleasant and interesting."

"It is every woman's desire to possess a model husband," says a writer. A working model, for preference.

Hamilton Law, brilliant young Seattle junior, captured the other three open titles. He is being coached by Reg. Hill, former Kelowna player, who has won national renown for his coaching ability. Reg. states that the younger has great future.

Other Kelowna players failed to reach the final rounds in the open events, but Paul Hayes and Hazel Browne brought another championship to the Orchard City when they were successful in carrying off the mixed handicap doubles, from Shawacra and Miss Schopf, of Spokane, 15-12, 15-13.

In the semi-finals, they defeated Friend and Marion Elmore, also of Kelowna, 15-7, 15-10.

One of the most exciting early round matches was that of the mixed open doubles when Margaret Taylor and Rex Lupton, of Kelowna, were eliminated by Miss B. Haylock and John Morley, of Nelson, 15-12, 15-12.

The ultimate winners took the first set and had a big advantage in the second, when the Kelowna pair rallied to win. The match attracted one of the largest crowds of the tournament up to that point.

Lupton and Treadgold, two Kelowna singles stars, lasted until the third round, when they were defeated by Willis, of Spokane, and Yeager, of Seattle, in the men's open singles.

The Kelowna contingent was high in its praise of the splendid sportsmanship and the excellent brand of hospitality displayed by the Spokane players and followers. They were entertained royally and will have a soft spot in their hearts for Spokane for many moons to come.

The local players returned to the Orchard City late on Monday afternoon, having left for the scene of their triumphs on Thursday afternoon.

Margaret Taylor Defeats National Champion Of United States To Add Inland Empire Honours To Her List

Kelowna Star Triumphs Over Mrs. Del Barkhuff, Seattle Ace, In Finals Of Spokane Tourney—Paired With Hazel Browne, Takes Women Open Doubles—Kelowna Pair Also Win Mixed Doubles Handicap Event

Miss Margaret Taylor, ace Kelowna badminton star, and recently crowned B.C. singles and doubles champion, added a second major plum to her 1938 laurels on Sunday last in Spokane when she defeated the United States national champion, Mrs. Del Barkhuff, of Seattle, in the finals of the Inland Empire badminton championships.

Not content with that, Miss Taylor paired with her club-mate, Miss Hazel Browne, to sweep through all opposition and finally emerge victorious over Mrs. Barkhuff and Mrs. Clark Erwin, of Spokane.

Miss Taylor displayed "untiring form" according to Spokane critics, to take the finals matches. Mrs. Barkhuff started strong in the singles, running the score to 6-2 in her favour before Margaret Taylor put on a drive on her part to take the score to 9-7 and eventually to 11-7.

The second game saw Miss Taylor run the score to 9-1 before her opponent pulled to within one point, at 9-8. Miss Taylor went on to win at 11-8.

Misses Taylor and Browne dropped the opening set of their doubles final by a score of 15-12. The Canadian women, however, came back to win the next two games, 15-8, 15-3.

The play throughout this game was fast and strong with many brilliant volleys being made.

Hamilton Law, brilliant young Seattle junior, captured the other three open titles. He is being coached by Reg. Hill, former Kelowna player, who has won national renown for his coaching ability. Reg. states that the younger has great future.

Other Kelowna players failed to reach the final rounds in the open events, but Paul Hayes and Hazel Browne brought another championship to the Orchard City when they were successful in carrying off the mixed handicap doubles, from Shawacra and Miss Schopf, of Spokane, 15-12, 15-13.

In the semi-finals, they defeated Friend and Marion Elmore, also of Kelowna, 15-7, 15-10.

One of the most exciting early round matches was that of the mixed open doubles when Margaret Taylor and Rex Lupton, of Kelowna, were eliminated by Miss B. Haylock and John Morley, of Nelson, 15-12, 15-12.

The ultimate winners took the first set and had a big advantage in the second, when the Kelowna pair rallied to win. The match attracted one of the largest crowds of the tournament up to that point.

Lupton and Treadgold, two Kelowna singles stars, lasted until the third round, when they were defeated by Willis, of Spokane, and Yeager, of Seattle, in the men's open singles.

The Kelowna contingent was high in its praise of the splendid sportsmanship and the excellent brand of hospitality displayed by the Spokane players and followers. They were entertained royally and will have a soft spot in their hearts for Spokane for many moons to come.

The local players returned to the Orchard City late on Monday afternoon, having left for the scene of their triumphs on Thursday afternoon.

RUTLAND

RUTLAND, Feb. 16.—The regular monthly meeting of the Women's Institute was held on Wednesday afternoon last with a small attendance, only twelve members being present, but quite a volume of business received attention.

A convener was appointed to call a meeting with other organizations in regard to the annual Hospital card party. Arrangements were also made to hold a St. Patrick's tea on March 17th, each member to bring one guest or more. Dr. Currie took place about changing the day of the meeting, and it was decided to call the meetings for the second Thursday of the month for a time.

Dr. Ross Currie, the speaker for the afternoon, was then called upon. He is the dentist who is treating the school children's teeth. Dr. Currie, in most of his remarks to the importance of treating the teeth of pre-school children and elaborated upon reasons for this. He told a little about his work in the Peace River district. It was gratifying to hear his complimentary remarks in regard to the school children of Rutland. A hearty vote of thanks was extended to Dr. Currie for his enlightening address. It will be remembered that the local Institute is sponsoring the visit of the travelling dentistry clinic.

Tasty refreshments were served by the members and a pleasant social hour was spent.

About fifty people enjoyed an evening of various card games in the small hall on Friday evening last. The affair was staged by the Welfare Club, and the decorations were in keeping with St. Valentine's Day. Mr. E. (Buck) Hardie held high score for gentlemen in five hundred, Mrs. F. Snowsall, high score for contract bridge, and Mr. R. M. Bird, for auction bridge. The gross proceeds amounted to about \$13.00, which will be used by the club in connection with sewing for the Pre-ventorium.

Friday, Feb. 11th, was Parents Day at the school. About seventy parents took the opportunity to visit the various grades and see their children at work. Grades eight, nine and ten served tea to the visitors.

Proud Wife (to nervous friend in automobile): "I feel so safe with George driving now that he has joined the Red Cross. He is learning first aid, and knows where all the hospitals are."

KELOWNA SENIOR C CAGERS ARE BEATEN

PRINCETON, Feb. 17.—A touring Kelowna Senior C basketball team was defeated here last Friday night by Princeton Seniors, 31-20. The tourists' zone defence held the locals to two points in the first quarter, but in the second period Princeton ran the score up to 13-7. In the second half, the boys really started clicking. Fast passing and smart shooting soon made the game look one-sided. Jake Doncaster was outstanding on defence. Dodd, a Verity with 5 points was the best marksman on the Kelowna squad.

THIRD WIN FOR VERNON OVER LUMBY

VERNON, Feb. 17.—Striving for their seventh consecutive victory, Lumby's hockey boys were defeated by the league-leading Vernon Blue and Whites, in the civic arena last Friday evening. The homesters were on the long end of a 6-3 count and registered their third league triumph of the season over their play-off rivals.

SERIES OF MORNING TALKS AT UNITED CHURCH

General Topic Will Be "The Friendship Of Jesus"

Beginning on Sunday morning next, Feb. 20th, at the United Church, Rev. Dr. W. W. McPherson will give a series of six talks on "The Friendship of Jesus," seeking to show how life might be enriched by it. The subjects and dates are as follows:

Feb. 20—"Friendship as a Gift."
Feb. 27—"Friendship as an Experience."

March 6—"Its Power."
March 13—"Its Steadying Influence."
March 20—"Its Presence."
March 27—"Its Challenge."

The elevator attendant in a New York millionaire's skyscraper home wants to marry his employer's daughter. He says he can bring her up in the way she's been used to.

NEXT WEEK

THE CENTRAL BRITISH COLUMBIA BADMINTON CHAMPIONSHIPS

at the Kelowna Badminton Club
on TUESDAY, WEDNESDAY and THURSDAY
Admission—Tuesday and Wednesday, 25c.
Finals on Thursday at 2 p.m. 50c
Seats may be reserved for the finals at Williams' new Shoe Store for 10c extra.

THE ANNUAL BADMINTON DANCE

will be held at the Royal Anne Hotel on
THURSDAY (next) FEBRUARY 24th, at 9.45 p.m.
Music by Charles Pettman's Imperials.
TICKETS, \$1.00 (including supper) 20-40-1c

CATHARTICS
GOT YOU DOWN?
If you have common constipation, due to lack of bulk in the diet, harsh purgatives don't get at the cause of the trouble. Often they leave you weakened. It is better to eat a natural laxative food. Try regular breakfasts of Kellogg's All-Bran. It contains vitamin B₁—the intestinal tract's great tonic. And All-Bran provides "bulk." It absorbs moisture, softens like a sponge, and forms a mass that aids elimination. Eat this crunchy cereal every day, drink plenty of water and join the "regulars." Made by Kellogg in London, Ontario.

VANCOUVER'S RADIO
PASTOR TO HOLD
SPECIAL MEETINGS

Rev. W. Arnold Bennett To
Speak At Bethel Baptist
Church Here

Commencing Sunday, Feb. 20, to Thursday, Feb. 24, at Bethel Baptist Church, Richter St. S., special services will be conducted under the able ministry of Rev. W. Arnold Bennett, Vancouver's radio pastor. There will be meetings each afternoon at 2:30 o'clock, when Mr. Bennett will give Bible readings. The speaker is well known in Bible conference work as a teacher of outstanding ability. Gospel meetings will be held each evening at 7:30 o'clock, except Sunday evening, when the usual time of 7:15 will be observed. As a Gospel preacher, Rev. Mr. Bennett needs no introduction to Kelowna, as many will remember his successful ministry here some years ago, when his church was packed to capacity. Since that time, he has travelled extensively in Britain and Europe where his ministry met with marked success. Returning to Vancouver a few years ago, Rev. Mr. Bennett has built up a flourishing work in Mount Pleasant Baptist Church, where his ministry is enjoyed by large crowds. His morning broadcasts are much appreciated by the people of Vancouver who know him as "Vancouver's radio pastor." On Wednesday, Feb. 23rd, Rev. Mr. Bennett will inaugurate the new Bethel radio broadcast, when his message for that evening will be broadcast from

SOCIAL HAPPENINGS

Please phone any social items to 400

Mr. and Mrs. P. Woods and little son, of Vernon, were visitors in Kelowna on Sunday.

Mrs. Irene Parkinson returned last Friday from Edgewater, where she had been the guest of her daughter, Mrs. L. Gaddes, for the past two months.

Mr. John Whitehead, of Regina, who has been the guest of his sister, Mrs. A. J. Hughes, for the past three weeks, leaves for his home this evening.

Mrs. A. H. DeMara entertained a number of friends on Friday evening, at the Willow Inn at a Hospital Bridge.

Mr. and Mrs. "Tiny" Walrod have as their guest Miss Ann Tolin, of Ashcroft.

Mr. A. Geen, who has been visiting at the Coast, returned on Wednesday morning.

Mr. Donald Service, of Vancouver, was a business visitor in Kelowna this week.

Miss Mary Rattenbury entertained her bridge club on Wednesday evening at the Willow Inn.

Mr. C. Dawe, of New Westminster, was a business visitor in Kelowna this week.

Dr. A. S. Underhill left for Vancouver Saturday evening to attend the Bospital being held there this week.

Mrs. J. R. Conway was a tea hostess on Wednesday afternoon to a number of friends at her home on Richter St.

Mrs. Harry Bowser entertained her bridge club, on Tuesday evening, at her home on Stockwell Avenue.

Mr. Denis Gore left for the Coast on Wednesday evening.

Mr. A. J. Dawson returned on Wednesday from Vancouver.

Mr. J. R. Conway left on Saturday evening for Vancouver to take part in the Bospital.

Mrs. B. McDonald returned on Saturday from Vancouver, where she has been the guest of her daughter, Miss Eileen McDonald.

Mr. G. A. McKay left for Vancouver Saturday evening, to take part in the Bospital, being held there this week.

Mr. S. M. Simpson left on Wednesday evening, on a business trip to the Coast.

Members of the Kelowna Young Women's Club met at the home of Mrs. L. Day, on Monday evening, to make further plans for their Third Annual Spinsters' Ball which is to be held on Wednesday evening, March 2nd, at the Royal Anne Hotel.

Mr. "Stub" Rowcliffe left on Wednesday evening for the Coast.

OKANAGAN CENTRE

OKANAGAN CENTRE, Feb. 15.—The Centre Badminton Club participated in two matches the past week, both of them being played on the home court.

On Thursday evening last the Rutland club sent up a team composed of Mesdames Howes and Muford, the Misses Harrison and Stafford and Messrs. Fitzpatrick, E. Hardy, Simmons, and Stevens. They had for successful opponents (9-7) Mr. and Mrs. Cooney, Mr. and Mrs. Van Ackeren, the Messrs. Mary and Nora Carter and Messrs. Collins and Pixon.

On Saturday evening a team from the Mission, which included Mr. and Mrs. Mallam, Mr. and Mrs. Stubbs, Mrs. McClymont, Miss Thompson, Peter Mallam and Mr. Middlemass, met and defeated by a score of 9-7 Mr. and Mrs. Fallow, Mrs. Glead, Miss Glead, Mrs. Hare, T. Collinson, R. Berry and F. Parker.

On Thursday evening of last week a party of eight from the Badminton Club visited the Kelowna Club and participated in the American tournament arranged there.

The regular monthly meeting of the Women's Institute was held on Thursday afternoon of last week at the Community Hall, with a fair attendance in spite of the inclement weather. A report of the Directors' meeting which was held following the annual meeting, in January, was given, which included the appointment of conveners of standing committees as follows:—Child Welfare and Education, grouped together, Miss MacLennan; Home Economics, Mrs. F. R. Wentworth; Legislation, also Immigration, Mrs. Hare; Community Betterment, Mrs. Cheesman; Agriculture, Mrs. Parker; Industries, Mrs. B. Cooney; Publicity, Mrs. Pixon; National Events, Institute Work and Method, Mrs. Hunter; Social, Mrs. Carter and Mrs. Harrop; Visiting, Mrs. Ross and Mrs. Thompson. Mrs. Lodge was appointed convener of the garden party to be arranged in the early summer.

The time of the meeting was largely occupied in making plans for various meetings and entertainments for the year, including a special feature, pre-Christmas sale and an exhibit for the Interior Provincial Exhibition. Mrs. Copeland and Mrs. Harrop were tea-hostesses, while Mrs. Ross conducted the raffle for a surprise packet, which was won by Mrs. Pixon. The auditorium of Bethel church. His last visit to this church, a few years ago, realized a capacity crowd, but recently the church auditorium has been enlarged and will now accommodate more people.

FINE EXHIBIT OF CURIOS AT EAST KELOWNA

School Radio Fund Benefits To Extent Of Nearly Thirty Dollars By Interesting Display

EAST KELOWNA, Feb. 16.—That the exhibition of curios collected from East Kelowna homes and placed on view in the Community Hall on Friday of last week was an unqualified success was the unanimous verdict of all who took the trouble to view the articles loaned for the occasion. Amusement that a community of the size of ours should contain such an interesting and copious variety of world wonders was expressed on all sides. The presence of Rev. A. C. Pound, who was for some years stationed in China, and who brought with him a splendid collection of Chinese curios, added materially to the pleasure of the evening. Mr. Pound accompanied his exhibit with an explanatory talk that made many mysterious-looking items known.

Not the least interesting things among the many on display were of a literary nature. From the home of Mr. J. Paterson came a copy of one of the grandfathers of the long line of medical books. This particular copy was struck in 1718, the work of one Culpeper, whose treatments were, to say the least, bordering on the marvellous. It is startling to read a medical opinion of 200 years ago that the best treatment for defective vision is the ashes of the head of a black cat blown into the offending optic. Col. W. Moodie was able to produce a copy of a London newspaper in which, six weeks after the event had occurred, was announced Nelson's victory in the Battle of the Nile. Mr. C. D. Fitzgerald loaned the original burial orders for the funeral of Sir John Moore, immortalized in

"We buried him darkly at dead of night,
The sods with our bayonets turning—"
When it is considered that the supply of interesting material for a display of this kind was not heavily drawn upon by any means, it is all the more remarkable that such a complete and interesting exhibit was arranged. The proceeds of the evening were allocated for the inauguration of a fund being raised by the school for the purchase of a radio, and it is with considerable gratification that the children are able to count almost \$30 towards their objective. Many thanks are due those who kindly loaned exhibits and to many members of the community who, unable to be present, sent along their contributions.

Activity engendered by matches with neighbouring clubs continues to mark the local badminton club. On Saturday evening a "B" team, composed of Mrs. R. Carter, Mrs. E. Dodd, Miss M. Moodie, Miss M. Powell, and A. Ward, J. Blackburne, E. Dodd, G. Olson travelled to play a match at the Community Hall, Mrs. McClymont being hostess to the juniors in the afternoon, while Mr. V. Wilson entertained the seniors in the evening. The hall was an ideal place for the party, with plenty of room for games. Refreshments were served on the stage and a number of parents helped with the catering at both parties.

The Sawmill Creek Water-users (Number One) held their annual meeting last Thursday at the Community Hall. Mr. G. B. Ford was appointed Manager and Mr. D. A. Middlemass will continue as Secretary.

There was quite a big crowd on Sunday afternoon at the toboggan slide, which the fresh snow put in quite fair shape, fast but a bit bumpy. Several enthusiasts also brought their skis for the run.

MISSION SHUTTLE TEAMS ENGAGE IN THREE MATCHES

A Win, Loss And Draw In Games With Okanagan Centre And East Kelowna

OKANAGAN MISSION, Feb. 15.—Three matches were played by the local Badminton Club over last weekend, two taking place on Saturday, when the Mission "A" team were invited for a match at Okanagan Centre, while the "B" team played at home against East Kelowna.

The match at Okanagan Centre was very closely contested. Sixteen games of 21 points were played, the Mission being victorious by 9-7. Both in men's and ladies' doubles the honours were even, several games reaching set point, but the Mission appeared to have a slight edge in the mixed, which proved the deciding factor.

The teams were—Mission: H. C. Mallam, R. Stubbs, D. A. Middlemass, P. Mallam, and Mrs. Mallam, Mrs. McClymont, Miss M. Thompson and Miss M. Stubbs. The Centre: C. Fallow, R. Berry, T. Collinson and F. Parker, with Mrs. Fallow, Mrs. Glead, Mrs. E. Hare and Miss E. Glead.

The Mission "B" team was as follows: Dick Hall, Harold Willet, Bert Parris, Norman Apsey and the Misses Winifred Baldwin, Gladys Hunt, Dorothy Apsey and Joan Paret. In this match also there were a number of very close games, with East Kelowna the victors by 15-9 at the end of an enjoyable evening. The visitors were S. Olson, E. Dodd, Ward and Blackburne, with Mrs. Carter, Mrs. Dodd, Miss Powell and Miss Moodie.

On Monday night the men's team played East Kelowna on the latter's court, the result being drawn 4-4. This match was a continuation of the series, interrupted last year, which has produced such keen and friendly rivalry between these two clubs. Mission players were H. C. Mallam, Peter Mallam, R. Stubbs, D. A. Middlemass, N. Apsey, H. W. Ashberry, R. Hall and G. S. Garsons. East Kelowna was represented by Fitzgerald, Daniel Peak, J. Berry, E. Bradbury, E. Dodd, Ward and Peterson. The Badminton Club is seeking permission of the Community Hall executive to install lighting at the side of the court, at the club's expense, to be used during play instead of the present central lights.

Fifteen parents and other interested visitors took advantage of the invitation last Thursday to inspect the School and see for themselves the happy cooperation between teachers and pupils. They had the opportunity as well of looking over the building itself, the lunch-room is also used as a projection room for lantern-slide studies, the equipment for which was installed last year.

On Friday last both senior and junior pupils had a thoroughly enjoyable Valentine party at the Community Hall, Mrs. McClymont being hostess to the juniors in the afternoon, while Mr. V. Wilson entertained the seniors in the evening. The hall was an ideal place for the party, with plenty of room for games. Refreshments were served on the stage and a number of parents helped with the catering at both parties.

The Sawmill Creek Water-users (Number One) held their annual meeting last Thursday at the Community Hall. Mr. G. B. Ford was appointed Manager and Mr. D. A. Middlemass will continue as Secretary.

There was quite a big crowd on Sunday afternoon at the toboggan slide, which the fresh snow put in quite fair shape, fast but a bit bumpy. Several enthusiasts also brought their skis for the run.

GIRLS IN CHARGE OF CHURCH SERVICE

Annual Mother And Daughter Programme Attracts Big Audience

A congregation that completely filled the United Church on Sunday evening, gathered to take part in the "Mother and Daughter" service. The whole service was in charge of the girls under the leadership of Mrs. T. F. McWilliams and her group leaders. The worship opened with the processional hymn, "Lead us, Heavenly Father, lead us," as the girls filed into the choir loft, filling every seat.

The two numbers by the choir, "God be in my head" and the Vesper anthem, were well rendered and added to the spirit of worship. The splendid soloists, Wilma Jenkins, who sang with great feeling "Abide with me," and Norma Goudie, whose voice suited her solo, "My Task," added greatly to the impressiveness of the service.

Beth Gellatly seemed quite at home in her very fine talk on the work and programme of the C.G.I.T. work and tactfully reminded the congregation of the 10-cent campaign which would be put on by the girls in the interests of the C.G.I.T. movement in the Province this week.

The story of "The Road of the Loving Heart" based on the experience of R. L. Stevenson, given by Yvonne Anderson, while Violet Goldsmith's fine talk on "Friendship" was effectively rendered.

The climax of a most inspiring service found expression in the Candle-Lighting ceremony at the close with Charlotte Houston, given by Sandra Blackwood and Florence Fraser, taking part under the leadership of Ella Archibald.

Miss Jean Burt, the President of the C.G.I.T. group, very ably presided throughout. The whole work of the girls reflected great credit on their leaders and served to emphasize the great value of the programme of the Canadian Girls in Training movement, where good leaders take charge. Mr. Cyril S. Mossop ably presided at the organ and led the choir.

New Spring
COTTONS
Are Here

Direct from the Wabasso Cotton Mills—our first shipment of Prints, Broadcloths, Lincens, Piques. Featuring lovely new colourings. Large floral and small dainty patterns for children as well as the plain coloured fabrics.

GLENMORE DRAMA SOCIETY HOLDS SOCIAL EVENING

Dances By Mrs. Sheila Tyrer's Pupils Are Very Attractive Items Of Programme

GLENMORE, Feb. 16.—The Dramatic Society held a very enjoyable evening at the School on Friday last, when a floor show was given by Mrs. Tyrer's dancing class, the girls all performing their numbers with remarkable grace and ease, which testified to the patience and skill of their teacher.

The programme consisted of a military number by Emma Knox, Sheila Paisley, Jean Newton, Gloria Wyman, Shirley Rennie, Norma Marshall, Sheila Tyrer, Audrey Gibson, Jennie Bell and Lois Maxson; song, "I double dare you," Gloria Wyman; school days number, Erma Knox, Sheila Paisley, Jean Newton and Gloria Wyman; acrobatic dance, Norma Marshall; fast tap dance, Mrs. Tyrer; song and dance, Gloria Wyman.

At the close of the programme, Mr. Geo. Reed, Jr., President of the Society, on behalf of the members presented Mrs. Tyrer with a pot of flowers in appreciation of the work of both her husband and herself in giving the evening's entertainment, which was indeed greatly enjoyed by all present.

The Glenmore Orchestra, after a somewhat long holiday, made its appearance once again, with Miss Mildred Lloyd-Jones as pianist, and was very much appreciated. Refreshments were served and the evening was brought to a close with the singing of "God Save The King."

Mr. E. Hartwick, who has been in poor health for the past several weeks, entered the Hospital on Friday last, undergoing an operation the following morning. Last reports are that he is doing as well as can be expected.

The snow plough was out in the northern part of the district for the first time this winter, on Monday and Tuesday.

Mr. and Mrs. E. W. Ferguson arrived home on Saturday last, after spending several enjoyable months with friends in Colton, Los Angeles and Long Beach, Cal. They also made a trip to Mexico.

Mrs. Charles Henderson is now a member of the Executive of the Kelowna branch of the Okanagan Library.

Mrs. Lewis, Sr., who has been ill in the Hospital for several weeks, was able to leave it on Monday but is staying in town through the cold weather.

VANCOUVER APPLE WEEK

TO BE REPEATED NEXT FALL

A letter from Mr. W. E. Payne, Executive Secretary of the Vancouver Board of Trade, advises The Courier that the Executive of the B. C. Products Bureau of the Board, unanimously decided, at a meeting held on Monday, Feb. 14th, to hold its second Apple Week in the fall of this year.

The first Apple Week, held recently, proved to be eminently successful and resulted in a greatly increased demand for Okanagan apples.

"IF I EVER BUILD AGAIN"

A FEW POINTERS FROM PRESENT HOME OWNERS:
"Land can make or break the success of your home."
"Be satisfied with the location of your house, even if you have to pay more."
"Consider your location above everything else."
"I wish I had built in a better part of town."

Good neighbourhood and good land are requisites to a satisfactory home.

BENVOULIN YOUNG PEOPLE ENJOY SLEIGHING PARTY

Excursion Made To Home Of Mr. And Mrs. Wilbur Reid At Okanagan Mission

BENVOULIN, Feb. 16.—The Benvoulin Young People had a very successful sleighing party last Friday night, when Mr. A. Reid kindly loaned his team for the occasion. After an enjoyable evening spent in games and refreshments at the home of Mr. and Mrs. Wilbur Reid, at Okanagan Mission, the party broke up about 11:30 and arrived home safe and sound of limb.

A meeting of the Water Users Community was held in the Mission Creek School on Wednesday night of last week, Mr. B. McIver presiding. There was a fair turnout, though not as large as in previous years. The following gentlemen were elected to the board: Messrs. D. Ramponi, Joe Lanfranco, A. McFarlane, W. Hamill and B. McIver, while Mr. Ed. Coelen and Mr. T. Hargreaves were the retiring directors.

The community will be interested to know that Rev. A. C. Pound has received a book entitled "Musings of a Scottish Granny," by Isabel Marchioness of Aberdeen and Temair, G.B.E., LL.D., J.P., in commemoration of the forty-fifth anniversary of the church, in which Lady Aberdeen has always retained her interest. The late Lord Aberdeen was a liberal contributor at the time the church was built.

Mr. and Mrs. C. O. Goldsmith, of Vernon, were visitors at the home of Mrs. J. B. Fisher on Sunday last.

The sympathy of the entire community is extended to the Tucker family in the loss of their father, the late Mr. John Tucker, who was a resident of this district for many years.

We are advised that there will be no Sunday School next Sunday, but services will be resumed on the following Sunday, February 27th.

NOTICE

"FOUND DISTRICT ACT"

Pursuant to the provisions of Section 11 of the "Found District Act," Chapter 220, R. S. B. C. 1936, notice is hereby given of the resignation of Hugh Bernard O'Hare as Pound-keeper of the Pound established at Okanagan Centre, and of the appointment in his stead of Max Stiller, of Okanagan Centre, B.C.

The location of the pound premises is Lot 43, Okanagan Division of Yale District, Map 444.
K. C. MACDONALD,
Minister of Agriculture,
Victoria, B.C.
January 14, 1938. 264c

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Interior Fittings, Public Buildings, Kelowna, B.C.," will be received until 12 o'clock noon, Friday, March 11, 1938, for the supply and installation of interior fittings in the Public Buildings, Kelowna, B.C.

Plans and specification can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, the Resident Architect, Post Office Building, Victoria, B.C., the Caretaker, Post Office Building, Kelowna, B.C., and at the Post Office, Kelowna, B.C. Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein. Each tender must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque if required to make up an odd amount.

By order,
J. M. SOMERVILLE, Secretary.
Department of Public Works,
Ottawa, February 11, 1938. 29-1c

OBITUARY

Mr. Charles James Fox
Mr. Charles James Fox, of 235 West Tenth Avenue, Vancouver, who passed away in that city on Sunday, Feb. 13th, came to the Kelowna district from England in 1903 and engaged in farming, which he carried on for over twenty years, moving to Chilliwack in 1925 and from there to Vancouver two years ago. He was fifty-seven years of age. Besides his wife, Mr. Fox is survived by one son, Charles James, resident in Vancouver, and a daughter, Mrs. Jack Dobson, of Duncan. The funeral was held from the Anglican Church at Chilliwack on Tuesday.

DROP B.C. FRUIT BOARD TO ONE-MAN CONTROL

(Continued from Page 1)

ager shall not be a fruit rancher or retain any connection with the fruit industry other than as manager of the cartel.

(2) "To amend the cartel so as to eliminate any discrimination against late varieties of apples by having only one cartel which shall include McIntosh and all other late varieties.

(3) "To appoint a Price-Fixing Committee of not less than three persons, including one person from the Oliver-Osoyoos district, who shall not necessarily be a grower."

The outburst at Friday's meeting was not a sporadic one, but rather the culmination of many years of simmering discontent. The feeling expressed at the B.C.F.G.A. meeting was the general opinion of Oliver and Osoyoos growers. The southern Okanagan apple grower feels that he has a genuine grievance. He has apples to sell, but he has no control as to when and how they should be sold, the meeting stated.

That is the feeling of southern Okanagan growers and prompted the suggestion from several left-wingers that the south break away from the north and operate as a separate unit. A few conservative members feared this would result in a disastrous price cutting campaign with the north competing against the south.

Growing Feeling For Separate Unit
The opinion is growing here, however, that a separate unit should be formed in the south and that it would not necessarily mean a price cutting campaign. Rather, it would give the southern grower some control over the marketing of his fruit, and the north and south units could co-operate for the orderly marketing of fruit on a basis equitable to all growers.

Another resolution passed at the meeting reads as follows:
"Moved, that our local B.C.F.G.A. be instructed to bring up the matter of the one and one-quarter cent levy imposed by the Tree Fruit Board on export fruit, at the next meeting of Central, and that they be instructed to take a firm stand in the growers' behalf and demand that the B.C.F.G.A. executive in turn demand cancellation of this levy on all export fruit."

The one and one-quarter cent levy on export fruit was condemned on the grounds that the money was being raised to promote the sale of domestic apples, and since the export fruit could in no way benefit from such levy, therefore export fruit should not be taxed for the benefit of domestic fruit.

Sponsored by the Gyro Club
Collection at the door. 29-1c

Local and Personal

Mrs. Gordon D. Brown, Cadder Ave., left on Tuesday for Kamloops and the Coast. She expects to be away two or three weeks.

The silver wedding of Mr. and Mrs. I. Pioli was celebrated last Saturday at a most delightful dance in the Orange Hall. About 150 guests were present, and Mr. and Mrs. Pioli received a great many beautiful silver gifts.

An advertisement in this issue calls for tenders for the supply and installation of interior fittings in the new Dominion public building in Kelowna. Tenders must be received at Ottawa by Friday, March 11th.

The Kelowna Chess Club held a re-organization meeting on Wednesday of last week. Membership fee was fixed at one dollar for the season, and the Club will meet Wednesday evenings at the Unique Shop Teamroom. New members, beginners and anyone interested in learning the grand old game will be welcomed. The Club Secretary is Mr. A. J. Pritchard.

Dr. J. Allen Harris, who is lecturing at the Junior High Auditorium on next Tuesday evening, will outline the role of timber in our past civilization. He will further discuss the future of timber, in the new cellulose industries, plastics (bakelite and similar products), solvents (new bases for enamels, etc.) and hopes to predict some of the commercial possibilities of "tree" products.

Two Canadian Pacific Railway officials paid a visit to Kelowna on Tuesday, Messrs. G. Bruce Burpee, General Passenger Agent, Vancouver, and Arthur J. Mahon, Special Traffic Representative, also of Vancouver. Mr. Burpee, who recently succeeded Mr. E. F. L. Sturges, expressed himself as delighted with Kelowna, its crisp air, and February sunshine, and declared his intention of returning at blossom time to see the orchards in all their glory of spring attire.

FEED STUFFS COSTS AND MILK PRICES

British Producers Are Feeling The Pinch Of Higher Costs

Forwarding to The Courier the subjoined clipping from the Breconshire (Wales) County Times, a correspondent states that local prices for milk have barely averaged from 10 cents to 14 cents most per gallon to the producer, while he reckons that production costs amount to at least 18 cents per gallon without overhead.

Agriculture Here And In The Empire

One hears a great deal about the importance of agriculture in the Empire, and of the need to prevent the interests of Empire producers from being sacrificed if a trade agreement should be concluded between Britain and the United States. Although not so much concern is usually shown for the interests of British producers, the size of our agricultural industry far exceeds that of any of the countries in the Empire. In 1931, the last year in which the figures were comparable, there were 1,250,000 acres occupied in agriculture in Great Britain. In Canada there were 1,110,000 persons occupied in agriculture, in Australia 324,000, and in New Zealand 142,000. Again, if gross values of output are compared, British agriculture is very much greater than the industry in any of the Dominions. In 1934-35 Canada, with an estimated gross agricultural revenue of £187,000,000, was the nearest rival to Great Britain's £238,000,000, while the gross values of agricultural production in Australia and New Zealand were only £150,000,000 and £39,000,000 respectively.

The Chairman of British Oil and Cake Mills, Ltd., at a luncheon last week, questioned whether the effect of higher cost of feeding stuffs was "so serious as was thought." He was speaking of the feeding stuffs used in milk production. Surely the seriousness of the increased prices in the last two years is beyond question. The increased prices of concentrates used in an ordinary "production ration" in that time must mean an increase of at least a half-penny in the cost of producing a gallon of milk. A half-penny may sound rather a small amount. But producers' pool prices in 1936-37, averaging 11.99d. per gallon, were precisely the same, on average, as two years previously. From that 11.99d. transport and collecting costs have meant a deduction of about 1.4d. average, leaving a little more than 10d. a gallon. And two years ago a Committee of Investigation accepted the figure of 9.4d. as a fair average cost of producing a gallon of milk. It is easy to see what difference a 1.2d. a gallon on the cost of production may mean to a milk producer. Feeding stuffs at only one item amongst several which have increased in cost, the production of milk. It is clearly an important one.

VERNON I.O.D.E. ELECT OFFICERS

VERNON—The annual meeting of Chrysler Chapter I.O.D.E. was held in the Court House on Monday, February 7, when the following officers were appointed for 1938:
Regent, Mrs. Fitzmaurice; 1st Vice-President, Mrs. Layton; 2nd Vice-President, Mrs. Monk; Secretary-Treasurer, Mrs. Urquhart; Echoes Secretary, Mrs. Galbraith; Editorial Secretary, Mrs. Rourke; Standard Bearer, Mrs. LeBlond.
Councillors: Mrs. Brayshaw, Mrs. Chapman, Mrs. Cullen, Mrs. Clarke, Mrs. Kinnard, Mrs. Montague, Mrs. Moore, Mrs. Nicholson, Mrs. Spicer.

"Is the giraffe troubled with indigestion after eating anything that disagrees?" inquires a reader. Yes, but not until the following week.

SHOW BUILDING REQUESTED AS BOYS' GYMNASIUM

(Continued from Page 1)

Referred to the committee on the estimates.
Conference On Unemployment Insurance

An invitation was received from the Okanagan Industrial and Agricultural Association of Kelowna and District for a delegation from the City Council to attend a conference in the Orange Hall at a date to be set in the near future. The letter stated that the various organizations which were being requested to send delegations were: Party Liberal Association, Conservative Association, Teachers' Association, B.C.F.G.A., Retail Merchants' Association, Anglican Church, United Church, Senior Board of Trade, Junior Board of Trade, Mayor O. L. Jones and Capt. C. R. Bull, M.L.A. The following points of discussion were outlined:

1. To find endorsement of federal unemployment insurance to Premier Mackenzie King.
2. To send endorsement to the federal M.P. for Yale.
3. To forward a resolution to Premier Duplessis of Quebec, demanding that such payment be withdrawn in opposition and co-operate with the federal Government.
4. To forward a resolution to the Patullo Government, urging co-operation with the King Government in securing federal unemployment insurance.

After discussion of the matter, it was decided to reply that the Council could not attend the proposed conference as an official body, but several aldermen would probably attend unofficially.

Destruction Of Old Documents
Owing to the crowded condition of the City filing system, the City Clerk was authorized, by resolution, to destroy all letters, copies of letters, vouchers and duplicate receipts dated prior to Dec. 31, 1931.

Taxes May Now Be Prepaid
By-Law No. 706, providing for the acceptance of monies on deposit as against payment of taxes for the year 1938, and for payment of interest at the rate of four per cent per annum on all such payments made prior to Sept. 1, 1938, from the date of such payments until the tax penalty date on Oct. 19th, 1938, received reconsideration and final passage.

Sales Of Property
By-Law No. 707, selling Lot 20, R.P. 1039, to Mr. Michael Pansegrau for \$75, also received final passage.

By-Law No. 708, selling Lot 13, R.P. 1407, to Mr. Stuart Robert Webster for \$150, was introduced and received three readings.

By-Law No. 709, granting an option of purchase on Lot 6, R.P. 662, to Mr. Bertram Cherry and his wife, Mrs. Mildred Dorothy Cherry, at a price of \$125, \$45 upon execution of the option and the balance of \$80 on Nov. 1st, 1938, was introduced and read three times.

Extension Of Time For School Extraordinary Expenses
The Council had met the School Board in committee at 7.30 p.m. to hear the case for need of additional school accommodation. The members of the Board left about 8.30 to permit the Council to get on with their regular business, and discussion of the subject was postponed for a short time, during which Ald. Sutherland expressed the view that real estate was being taxed too heavily for education and that some of the burden should be borne by other forms of taxation.

It was emphasized during the discussion that the public should understand that the City Council had no power to amend or reject the ordinary estimates of the School Board, for operation and maintenance of the schools. Extraordinary estimates, on the other hand, such matters as erection of school premises, were subject to the approval or otherwise of the Council.

It was decided to grant the School Board an extension of time until April 1st, 1938, in which to submit their estimates of extraordinary expenditure for the current year.

After adjournment until Monday, Feb. 28th, the Council, all the members of which were present except Ald. McKay, absent at the Coast, sat in committee of the whole.

1ST RUTLAND TROOP
"Do a good turn daily!"
Orders for the week ending Feb. 19: The Troop will parade in the Community Hall on Friday evening, at 7.45 p.m. Points for uniform.
Duty Patrol: Seals.

The meeting last week was held on Saturday evening, and the attendance was fair considering the fact, 26 Scouts answering the roll. A.S.M. Peter Ritchie, whose smiling countenance has been missing from our Friday meetings for some time, was able to attend this time, the play rehearsals in which he had become involved keeping him away on Fridays.

Quite a few tests were passed at this meeting and several recruits are now ready for investiture.
On Tuesday next the Troop will be the "Indoor Track Meet" on the occasion being Baden Powell's birthday.

Patrol Competition Standing

Patrol	Points
Kangaroos	737
Seals	640
Foxes	635
Beavers	480
Eagles	430

The Foxes defeated the Kangaroos in a basketball game at the close of last week's meeting. This week the Beavers met the Seals. So far the Beavers have not lost a game this season.

SUDDEN DEATH OF S. G. McCLELLAND SHOCKS FRIENDS

Popular Kelowna Resident Passes Away At Nelson From Heart Attack

A host of friends in Kelowna and throughout the province mourn the sudden passing of Mr. Samuel G. McClelland, one of the most widely known commercial travellers in British Columbia, to whom death came with startling swiftness about 7.30 on Sunday evening, Feb. 13th.

Mr. McClelland was paying a visit to the home of friends at 302 Observatory Street, Nelson, and was singing with a group gathered round the piano, when he suddenly felt a pain over his heart. He sat down on a sofa and passed away almost immediately, apparently from a heart attack. Medical aid had been summoned at once, but death had ensued before the doctor arrived.

A native of Glasgow, Scotland, Mr. McClelland, who was fifty-eight years of age, had spent all his life in the paper trade and was one of the best informed men in the province upon all details of the industry. He came to British Columbia as a comparatively young man and travelled for Smith, Davidson & Wright, Ltd., wholesale paper merchants, for many years. Later he had been in the employ of Pacific Mills, Ltd., paper manufacturers, of Ocean Falls, B.C., and he specialized in fruit packing and shipping houses. Originally resident in Vancouver, he transferred his place of residence to Kelowna several years ago so as to be in closer touch with the fruit trade.

Mr. McClelland is survived by his wife and two sons, James, at home, and Robert, of Vancouver, with whom deep sympathy is felt in their tragically sudden bereavement.
The funeral service was set for this afternoon at the United Church, Rev. Dr. W. W. McPherson officiating, with interment in the Kelowna Cemetery. Arrangements are in charge of the Kelowna Rotary Club, of which Mr. McClelland was a valued member. Chosen as pall bearers are Messrs. L. Kerry, E. T. Abbott, J. B. Spurrier, A. W. Hamilton, J. Dunlop and O. J. Jerns.

WESTBANK

WESTBANK, Feb. 16.—The surveyors have been busy during the past week marking out the new short cut to be made on the high road from Westbank Townsite to Boucherie.

Mrs. W. H. Thacker is making good progress towards recovery after her severe illness.

The Community Club held a most successful military whist drive in the Hall on Friday night. Every one was pleased to see Mrs. Gertrude Jones, who was out for the first time after her long illness. Mrs. Jones is the convener of the Entertainment Committee of the Community Club.

FEDERAL ENGINEER VISITS PENTICTON ON LEVEL OF LAKE

(Continued from Page 1)

south winds create havoc along the Skaha shore, the water level would be reduced and damage averted.

Although the Okanagan Lake control dam is in charge of Ottawa, any control dam at Okanagan Falls would apparently be in charge of Victoria.

May Fill In Slough
Another possibility facing the beach owners is that of filling in the slough to the north of their lots, closing the road between their lots and this slough area and then moving their cottages back from the beach front. After the trees along the actual lakeshore succumb to the waves, the foreshore would slope out to an angle giving the water no particular grade to fight against. It has been noticed that along the public beach, where there are no trees near the water, the present conditions of high-water and much wind have not caused any difficulty.

Filling of the slough and closing of the road south of it, together with utilization of the road north of the slough is regarded as the only permanent solution. Lot owners report that they have already lost about one-third of the length of their properties.

Some owners who had a dozen or fifteen fine trees in front of their cottages when they built along the beach have now lost all of these growths, have had to move their cottages back at least 20 feet and still find the water lapping on the front steps.

A measure of protection suggested to owners is that a small breakwater two feet high be constructed along the front of the cottages on a line with what might be expected to be the high water mark. This would be constructed of logs, brush and rocks and would be useful in breaking the force of winter waves.

Floods In South
The heavy volume of water now coming out of Okanagan Lake is flooding river lands south of Okanagan Falls. This is in violation of the interests of stock men who point out that winter feeding meadows along the river are being inundated and rendered useless for stock feeding purposes. Any lowering of the mouth of Skaha Lake at the Falls so as to reduce Skaha Lake at this time would only add to this condition, they state.

Skaha Lake level is certain to be higher during the spring when the flood water enters it from Shingle Creek, Ellis Creek and the south fork of Penticton Creek, all of which enter Okanagan River below the Okanagan Lake control dam.

Penticton Council suggested a reduction in the flow from Okanagan Lake, but Kelowna has protested against any reduction on the score that, if Okanagan Lake level is allowed to rise, sewage conditions in the Orchard City will be disturbed.
It has been stated that up to the end of January the precipitation in the Okanagan area, including Valley and surrounding hills, was almost 75 per cent above the 23-year average to the end of that month.
Conditions may alter during the spring but authorities are running Okanagan Lake off as fast as possible in order to be prepared for high water conditions later on.

High School Highlights

The past week has been a very busy one for the High School. On Tuesday the students went over to the Junior High School to see lantern slides on the "Blind Spot of Science." The title caused quite a bit of comment among the students until they found out it was "The Problem of Depression."

The Dramatic Club members are busy practising for the plays for the school concert.

Thursday was visitors' day at the schools, we were sorry to see so few at the High School.

On Friday the Photography Club handled lantern slides in the laboratory with Miss Deans, described as night photography.

The Glee Club have received the festival pieces, which are as follows:

"Music spread thy voice around," by Handel; "Orpheus with his lute," by A. Sullivan and "Dear Land of Home," by Jean Sibelius.

LETTERS TO THE EDITOR

MARGARET TAYLOR THIP
DISCUSSED

Kelowna, B.C., Feb. 14th, 1938.
The Editor,
The Kelowna Courier.

Dear Sir:
The publication of this letter will be appreciated in order to correct an erroneous impression created by your front page article under Miss Margaret Taylor's picture last week.

The transportation of defending Canadian Champions is automatically taken care of with funds of the Dominion Association, and therefore no specific sum was set aside by them to send the competitors from this Province to Quebec as stated. Dick Birch (not Underhill) has had to retire from competitive play this year by doctors' orders.

The Dominion Association has not refused to allot any of this money to B.C., but is in fact sympathetic to the representations of the Provincial Association for assistance in sending its title holders east, and it is expected that some definite offer will be forthcoming as soon as their executive can meet to settle the details. It should be borne in mind in this connection that in view of the inability of the holders to compete, all of the provinces have an equal right to share in the over funds may be available; it was a coincidence that most of the titles were won by British Columbia last year, but it is the champion who is assisted to the national tournament and not the province.

The B.C. Association has not yet made any statement about its position, and although it is unquestionably not in a condition to finance the expenses of a representative contingent of say, four or six players to Quebec, it is equally certain it will go as far in this direction as it is able to. Incidentally it has always been necessary to go outside Association funds to procure money required for the national tournament; the Provincial Associations have more than they can do to promote interchange of players in their own tournaments. The balance of the money required has to be obtained from those of the public interested in the promotion of the game; in much the same way part of Miss Taylor's original trip to Ottawa was taken care of by Kelowna some years ago.

Badminton is a game which has almost entirely to take care of itself financially from within, as tournament "gates" are few and far between and do not amount to much at the best; there is nothing to attract the public's dollar in the sense of team games, such as hockey and basketball, and it is therefore only by the direct co-operation of the public at large that an outstanding player can procure the opportunity for ultimate honours in a country of such vast distances as Canada.

We feel that your article indicated a lack of interest on the part of both the Dominion and Provincial Associations in Miss Taylor's claims for selection; such an assumption was certainly premature and unjustified. In all fairness it should be mentioned that Kelowna has, in the past, certainly secured from the Associations more than it has subscribed, a position probably justified by the strength of the local Club and the quality of the players of particular pl.

Yours truly,

L. G. BUTLER,

President, Kelowna Badminton Club;

H. G. M. GARDNER,

Vice-President, B.C. Badminton Ass'n.

Mrs. M. L. FRANCE,

Councillor, B.C. Badminton Ass'n.

NOTE BY THE SPORT EDITOR:

The composition of the story on Miss Margaret Taylor's prospects for a trip, in last week's issue of The Courier, has created quite a stir among officials of the local Badminton Club, and those who also belong to the B.C. Badminton Association. When the story was written there was no thought to cast reflection on either the B.C. Badminton Association or its parent body, the Dominion Association. It appeared to the writer that it was only natural that the Dominion could not supply travelling expenses for all the provincial representatives and other provinces would have an equal right with B.C. if Miss Taylor's expenses were paid in part.

However, Miss Taylor herself did not believe there was the slightest chance of her going east, otherwise she would not have made the Spokane trip. The Courier has learned. If Kelowna citizens will help Miss Taylor on her trip east to seek Dominion honours, then a lot of publicity will be garnered for this sports-loving community. Since the Badminton Club's letter was received by this office, it has been learned that Miss Taylor has been chosen on No. 1 team, provided finances can be raised. This is encouraging news.

The writers of this letter have read into last week's story their own interpretation, which they are entitled to, but it does not follow that their guess is any better than the next man's. At the time of writing, The Courier was informed that the chances of any help from either the Dominion or Provincial bodies were slim indeed, and if they have brightened now, then all to the good.

DOMESTIC SHEEP AS
ANTIDOTE FOR DEER

Rutland B.C., Feb. 14, 1938.

To the Editor,

Kelowna Courier.

Dear Sir:

Re the annual plague of deer at Peachland.

I would like to point out that the introduction of domestic sheep into the orchards and adjoining country for a while each fall might prove a satisfactory means of keeping off the deer. I say this because we have noticed less and less deer up in the Greystoke district since sheep have been herded there a few months each summer. Also, at the Belgo, we used to have a few deer in and around the orchards most

of the time, but of late years, since sheep have been pastured more or less throughout the countryside spring and fall, we have hardly any deer around. Perhaps this has been tried already across the lake, if not, a trial might be worthwhile anyway, as sheep with a competent herder will do no damage—in fact they will help to clean up weeds and insect pests and will stampede any mice!

I hope the foregoing may be of interest.

Yours truly,

BERTRAM CHICHESTER.

A TRIBUTE TO THE LATE DR. F. P. PATTERSON

Kelowna, B.C., Feb. 15, 1938.

To the Editor,

Kelowna Courier.

Dear Sir:

I feel that there are so many friends of the late Dr. F. P. Patterson in Kelowna district, that a few words of eulogy at this time would not be amiss.

I have known him intimately for over twenty years, during which time he has frequently visited Kelowna.

On such occasions we doctors would seize the opportunity to have him examine difficult cases of bone and joint disease. This service he would give gladly, always free of charge and as carefully and painstakingly as if the case were his own responsibility. Many have derived great benefit from such consultations, some have been operated upon by him for relief of their crippling condition and must feel at this time a very personal loss in his untimely death.

Doctor Patterson, though the leader of the Provincial Conservative Party, was really not ambitious in a political sense, but felt he could serve his Province by taking an active part in the political life of British Columbia.

His chief heartfelt interest, however, was in the relief of suffering, the correction of crippling deformities and it will be for his wonderful success as an orthopedic surgeon that he will be best remembered in the years to come.

In his passing, British Columbia has lost one of the most valuable citizens and the medical fraternity one of its brightest lights.

Sincerely yours,

W. J. KNOX, M.D.,

President, Provincial Liberal Ass'n.

THE STANDARD CONTRACT

Okanagan Mission, Feb. 15, 1938.

To the Editor,

Kelowna Courier.

Mr. Editor:

Would you be good enough to allow me space for the following re Standard Contract?

A grower has mailed me a circular letter issued by a shipper dated February 1st. As this is an attempt to block the adoption of the Standard Contract and also to confuse the minds of his growers by incorrect statements, I am compelled to correct the statements made therein.

I quote from the circular:—"We have studied the Standard Contract and see no advantages offered the grower that we do not already offer under our contract with you today." Such a statement from a shipper is to be expected, but I can assure all shippers that the Contract Committee would welcome constructive criticism for a change.

Mr. Grower, I would suggest that you read your present contract and you will find that it is a shipper contract drawn to protect any and all of the shippers' interests and not one single word for the protection of the grower; in other words, it means a straight consigned deal for the grower without a single string attached, the shipper having the right to make a host of deductions without the amounts being stated, with the exception of prices for packing. It also gives him the right to fix and cut prices, pay secret rebates, manipulate pools and many other well known practices detrimental to the growers' interests. In other words, the shipper has the right under existing contracts to take the grower's crop, the grower having no protection whatsoever and the shipper no responsibility in law to the grower.

At the present time we have two forms of consignment, the one that we growers foolishly use, known as uncontrolled consignment, and the form used by business men throughout the world, a vast business being carried on by the method. It is known as controlled consignment.

Allow me to use a stated case. A manufacturer of men's hats in England wishes to do business in British Columbia. What procedure does he adopt? He contacts an agent in Vancouver, makes the necessary arrangements, then makes a consignment of hats, but that is not all. He also instructs his agent that a certain quantity must be sold for, say, \$20.00 a dozen, and a lower grade for \$15.00 per dozen.

How long would this manufacturer in England continue in business if he used our method and shipped his hats to the agent and gave the agent authority to sell at any price, guaranteed all expenses that the agent could possibly incur, and then, if there was anything left, to please forward it to England. Sounds stupid, does it not?

How much longer do we intend operating our business in such an idiotic manner? Yet this is exactly what we have been doing all these years, and then squall when we get hurt. Naturally, the shipper wishes us to continue to do so, as all his interest centres in packing fruit in order to make a profit and not in what he will pay the grower.

We who have been urging the adoption of the Standard Contract for over five years would abolish the uncontrolled consigned deal from the tree fruit area and adopt the business man's method of doing business, namely, controlled consignment. Our elected representatives would fix the price, fix deductions, stop price cutting, standardize pooling and pool accounting.

We are having a difficult year and, looking into the future with increasing production, I can see still more difficult years. If we growers would put ourselves in a position to take full advantage of whatever markets we may have, we must by united action place ourselves in a position to do so. The only opportunity we have ever had is by means of the Standard Contract.

R. W. RAMSAY,

Contract Committee.

TWO NEW PONTIACS for 1938

BETTER LOOKING.. BETTER BUILT.
1938's BEST BUY!

HEIR to a famous fine car line are these two great Pontiacs for 1938. A new, De Luxe Six... an ALL-TIME HIGH for VALUE! And a new, thrifty Special Six... priced at an ALL-TIME LOW!

Twin values to amaze Motoring Canada! Sheer beauty to take it by storm! The new, more striking "Silver Streak" styling of the new Pontiacs reflect character and distinction from bumper to cowl. Both cars give the beauty, silence, safety and riding comfort of new United Turbog Top Bodies by Fisher. Both provide new handling ease... effortless power... lightning "getaway"... top performance... and matchless thrill! And the ride is smoother than words can describe!

Exclusive to all Pontiac models, the new SAFETY INTER-LOCK Control, which can be done with a flick of the finger without removing a hand from the wheel. Never was

NEW SPECIAL SIX
at the LOWEST
PRICES IN PONTIAC HISTORY

a front seat more perfectly "built for three". There's no gear shift lever to "tangle" the legs of the middle passenger. Even the emergency brake is under the cowl. Floors are level and unobstructed, both front and rear. See and drive "Pontiac for 1938"—today! Be convinced that for 1938 Pontiac again outvalues the field. Ownership can be conveniently arranged through the General Motors Installment Plan that provides monthly payments to suit your purse.

Huge Quantity Of Boxed Apples On Old Country Market

Meet Competition From South African Fruit, Mainly Plums And Peaches

While moderate supplies of barrelled apples from Canada and the United States have reached the markets of the United Kingdom during the past seven days, boxed apples from both sources have exceeded a quarter of a million and on these markets where concentration has been heavy, the demand has been more than satisfied, prices having declined from the levels of the previous week, states the latest Old Country export circular, dated Jan. 21. In addition to apples from the North American continent, ample supplies of South African fruit, chiefly

plums and peaches, arrive each week and home grown rhubarb is also available in quantity and with South African plums provides a change from culinary apples.

As reported last week, the s.s. "Jakob Maersk" arrived with 23,900 barrels from Port Williams, and advice has since been received that of these some 16,000 were landed in London, the remainder being sent to Hull, arriving at this northern port on the 14th.

Low Prices Prevail

This week, about 14,700 barrels from Halifax, per s.s. "Andania" and s.s. "Beaverford" arrived in London and at the first sale on Tuesday buying seemed to be very selective, anything not really first class failing to attract attention. At this sale, some 6,000 Canadian and 8,000 American boxes of ap-

ples were on offer and small sizes of British Columbian fell below the 8/- mark, popular counts being about 1 1/2 higher in Extra Fancy and Fancy grades respectively. Of the American boxes, Newtowns from Oregon were unattractive and faulty in condition and as low as 6/6 was accepted for popular counts in Fancy grade, while those from California and Washington were slow at around 8/-.

Heavy concentration of American boxes on this market has undoubtedly contributed to the general decline in apple prices, the s.s. "Fresno Star" on the 11th landed just over 60,000 boxes, the s.s. "Nalon" on the 13th brought a further 20,000 and other boats on the 14th, 17th and 18th, brought the total during the past ten days to just over 120,000. At yesterday's sale, remainders from the s.s. "Fresno Star" and s.s. "Nalon" were still on offer, an indication of the slowness of movement.

In Covent Garden, samples of English, Irish and Dutch Bramleys are to be seen as well as Lord Derby, all out of gas or cold store. The Dutch are fine large specimens, but indifferently packed and consequently rather light in weight. A returnable bushel ham-

per of these Continental apples is priced at 9/6 to 10/-, but movement is slow and the outlet for this specially large fruit is limited. The experiment of gas storing the early variety, Lord Derby, was first tried this season, and judging by the appearance of the apples about three days after removal from store, they quickly lose the deep greenish colour which is their chief attraction and become a dull yellow, offering little inducement to buyers.

Moderate Supplies At Liverpool

Nova Scotia, Ontario, and British Columbia furnished moderate quantities to Liverpool this week, totalling about 25,500 barrels and 14,000 boxes. Scotians showed a general decline from last week's price levels with a very moderate demand. Specially fine samples of Baldwin and Golden Russet brought 21/- and 23/6 respectively, but with these exceptions they could not command much interest.

Ontario varieties offered were defective in condition and here also prices were low, the exception being a few Greenings at 20/- for No. 1 and 23/- for Domestic.

Nearly 8,000 boxes of British Columbian were offered on Wednesday, the 19th, and met fairly steady enquiry at prices varying little from those of the previous week. American supplies of both barrels and boxes were very moderate, about 4,500 barrels and 19,500 boxes being received.

McIntosh Demand Strong

Some 33,000 boxes from British Columbia by the s.s. "Washington Express," "Parthenia" and "Martin Bakke" arrived in Glasgow within the last seven days, and with the exception of some Jonathans on the "Martin Bakke"

all arrived in good condition. Some suspicion of this variety seems to be fixed in the minds of buyers, for while quite a strong demand for McIntosh developed, enquiry for Jonathans was disappointing.

A small cargo of the s.s. "Delilian" from Halifax met weak demand on Tuesday last, and part of the offerings were withdrawn. The Ontario Greenings by the same boat sold between 25/- to 27/- for No. 1 and 23/- to 25/- for Domestic.

Just over 4,000 barrels from Nova Scotia were brought by the s.s. "Manchester Commerce" to this port, and at Monday's sale very fair demand was evident and prices on the whole compare very favourably with those received elsewhere. A small quantity of British Columbian boxes were also in very fair demand, Delicious and Winesap being most favoured.

The 8,000 barrel cargo of the s.s. "Cairnross," part of which was offered a week ago, suffered a sharp decline in price at Tuesday's sale when the balance was offered. Fortunately, the quantity to be disposed of was not large. British Columbian Jonathans, the only variety offered at last Friday's sale, reached 10/- for Extra Fancy, with Fancy 1/- lower, and C grade at 8/- to 8/3.

Slow demand for apples is reported from Cardiff, where the cargo on the s.s. "Dorelian" was sold on Tuesday, about 4,800 barrels of Nova Scotians being offered. Baldwin's were the chief variety, prices for large and medium No. 1 being 17/- to 18/-, with Domestic in both sizes at 15/3 to 15/6. Ontario barrels ex s.s. "Westernland" and "Berengaria" and British

ORDINATION AND INDUCTION SERVICE AT UNITED CHURCH

Elders And Members Of Board Of Stewards To Be Installed

At the service in the United Church on Sunday morning, Feb. 20th, the ordination and induction of the Elders-elect and the installation of the new members of the Board of Stewards will take place. The Elders are Messrs. A. Fraser, G. E. Thompson, H. L. Glenn, F. Furter, S. A. Hubbell and L. O. Brown, and the Stewards are Messrs. H. P. Chapin, A. C. Dunnett, A. J. Hughes, J. Bowring, H. Mitchell and G. A. McKay.

Columbian boxes ex s.s. "Nalon" were sold at Southampton yesterday. Russets reached 20/- per barrel for No. 1, Baldwin's and Ben Davis several shillings less. Extra Fancy Cox Orange brought as high as 13/6 per box but small sizes were lower by 5/- in the same grade. Jonathans of popular sizes reached 9/- and McIntosh 8/3, with Newtowns 9/- to 10/- all in Extra Fancy grade.

The total arrivals from Canada and the United States to the United Kingdom, for the weeks ending September 7th, 1937, to January 18th, 1938, inclusive, and for the same period last year, are given in the following table:

	1937	1938
Canada	577,000	1,045,000
Boxes	1,315,000	1,583,000
U.S.A.	4,900	15,300
Boxes	182,700	400,000
Boxes	833,000	999,000
Hampers	45,000	142,700

HAL ODLUM SPEAKS ON ESPERANTO AND HOBBIES TO GROUP

Y.P.S. Of United Church Hears Of Language And Benefits Of Having Hobbies

One of the most interesting talks the Young People's Society of the United Church ever had was given by Mr. Hal Odium on "Hobbies," including the Esperanto language, on Sunday evening, Feb. 13.

Joy or wretchedness, he said, are both caused by being given leisure time and the first of these can be derived from having one or more hobbies of personal interest and profit.

One type of hobby is collecting things. The collections of sea shells, stamps and coins and their classification and arrangement, queer pieces of wood and stones resembling animals and other objects, different designs of matchboxes, books of many different kinds and maps and their study are engrossing.

Many enjoy keeping scrapbooks of poems, jokes, tricks and other material. Another invaluable practice is to collect autographs of famous people, alphabetically and in another book write bits of information pertaining to those whose names are written. Persons and particulars of them which often are forgotten in this way are remembered and their memories treasured.

Picture Albums Valuable

Taking pictures and storing them in albums is worth all the minutes spent many times over and is therefore one of the outstanding hobbies, he said. Persons, events and places are remembered indefinitely in this way.

Going out each day to help boys was the admirable hobby of a small boy. He went daily to encourage boys in difficulties by sometimes giving a little money, helping in some activity or looking for work, advising on social problems and generally helping them out of distressing circumstances.

A chance request of a small boy to improve a crudely-carved model sailboat led to a retired engineer spending many enjoyable years carving models of trains he knew so well and of sailboats. He outlived by many years a friend who merely existed because he had no hobby to fill the days with enjoyable activity.

Those who enjoy writing find pleasure in portraying characterizations of people and descriptions of scenes and objects. Pleasure can be increased in walking through woods and over hills and observing nature, inspecting and learning the names of trees, flowers, plants, insects; and the behaviour and footprints of birds and animals. Many who have done this have become sought after for their knowledge and authority on their respective subjects.

Esperanto Started In 1888

Languages are hobbies of some people and Esperanto, a proposed universal tongue, was his choice. While the Japanese, French and English languages require three, four and five years respectively to learn, Esperanto can be mastered in two months. Meaning "one who hopes," it was invented about 1888 by Dr. Zamenhof, a Polish Jew of Warsaw, who witnessed bitterness caused by language difficulties among Poles, Jews and Germans living in proximity.

It is meant to be a second language, not to replace existing ones. The words have been chosen from many languages, the most expressive ones of each being retained and a simplified system of grammar was created, making it consistent throughout. The accent is always on the second last syllable and prefixes and suffixes indicate various meanings. Those who learn it may insert their names in Esperanto language magazines which are read all over the world and they receive a deluge of letters and postcards from students all over the world, usually written in Esperanto.

He advocated Esperanto because of its simplicity, consistency and tendencies of stimulating friendship among the numerous races.

Synopsis of Land Act

PRE-EMPTIONS

VACANT, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement.

Full information concerning Pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands and Forests, Victoria, or any Government Agent.

Records will be granted surveying only land suitable for agricultural purposes within reasonable distance of road, school, settlement, etc., carrying over 5,000 board feet per acre east of the Coast Range and 8,000 feet per acre west of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, on printed forms obtained from the Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivation at least five acres, before a Crown Grant can be received.

Pre-emption carrying part time conditions of occupation are also granted.

PURCHASE OR LEASE

Applications are received for purchase of vacant and unreserved Crown lands not being timberland, for agricultural purposes. Minimum price of first-class (arable) land is \$1 per acre, and of second-class (grazing) land, \$2.50 per acre. For information, see Bulletin No. 1, Land Series, "Purchase and Lease of Crown Lands."

For special relief measure, reverted lands may be acquired by purchase in ten equal instalments, with the first payment suspended for two years, provided taxes are paid when due and improvements are made during the first two years of settlement.

Mill, factory or industrial sites on timberland, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtained after residence and improvement conditions are fulfilled and land has been surveyed.

For general and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

Under the Grazing Act the Province is divided into grazing districts and the range administered under grazing regulations amended from time to time to meet varying conditions. Annual grazing permits issued based on the grazing capacity per head of stock. Priority in grazing privileges is given to residents of the district. Grazing permits may form conditions for range management. Free or partially free permits available for sheep, cattle and horses, up to 500 head.

KELLY NAMED VICE-PRESIDENT

At a session of the B. C. Canned Foods Association in Vancouver last week, Mr. L. J. Kelly, President and Manager of the Rowcliffe Canning Co., Kelowna, was named Vice-President of the provincial body. Mr. E. M. Gilland, of Haney, was selected as the new President, succeeding Ralph Bulman, of Vernon. Mr. Kelly, accompanied by his assistant, Mr. Bert Cookson and family, left last week to visit at the Coast.

CONCERT-DANCE FOR BENEFIT OF PREVENTORIUM

Pleasing Entertainment Sponsored
By Kelowna Scots Draws
Good Attendance

Sponsored by practically the same committee that had handled the Burns anniversary celebration, the success of that affair was repeated on Thursday evening in the form of a concert and dance in the I.O.O.F. Hall, proceeds in aid of the Gordon Campbell Preventorium. The hall was filled to capacity for the crisp and interesting 90-minute programme that preceded the dance in the upper hall, and the audience was very appreciative, most of the numbers being encored.

The Scottish atmosphere of the sponsorship was maintained throughout, with the chairman, Mr. Douglas McDougall, in Highland dress, an introductory overture of delightful old Scottish airs by the Murray Orchestra, the "Highland Fling" and "Sword Dance" performed to the accompanying music of the bagpipes only, played in excellent time by Piper W. Arthur, and community singing of Scottish ballads, led by Mr. Geo. S. McKenzie. The programme was as follows:

Selection, Scottish airs, Murray Orchestra; introductory remarks, Mr. D. McDougall, chairman; dance, "Highland Fling," four girls, in Highland costume, Misses Melba Kennedy, Ruth Kennedy, Betty Runcie, Dorothy Marshall; comic song, Mr. J. Macdonald; tap dance, Miss Morag Macdonald; community singing; recitation, Mrs. D. McDougall; selection, Murray Orchestra; song, Miss French; military tap dance, Miss Gladys Orsi; Polish dance, in national costume, Misses Macdonald, Jenkins, McWilliams, Skelley; community singing, "Sword Dance," in Highland costume, Miss Melba Kennedy and Mr. C. Henderson. The piano accompaniments were played by Mrs. Davidson, of Vernon.

At the conclusion of the programme, all those who had taken part in it were assembled on the stage and led the audience in singing "Auld Lang Syne" and the National Anthem.

To the lilting strains of the Murray Orchestra, dancing, with Scottish and Canadian dances both included, was carried on afterwards upstairs until after 2:00 a.m. A tasty supper was served in the lower hall at midnight.

The net result of the entertainment is that the funds of the Preventorium will benefit by the neat sum of \$100.30.

The committee in charge wish to express their sincere thanks to the artists who took part in the concert and to all others who assisted in various ways, including the ladies who contributed so liberally towards dainties for the supper table, the stores that donated food supplies and the Canadian Legion Pipe Band for advertising the event by parading the streets the previous Saturday night.

A man recently told a magistrate that he makes quite a good living by retailing birds. We didn't know they needed it.

West Kootenay Power Mooted For Peachland

Company's Representative Frank-
ly States Municipality Now
Enjoys Very Cheap Light

PEACHLAND, Feb. 15.—The regular Council meeting, held on Wednesday afternoon, was turned into a public meeting as a large crowd gathered to hear Mr. D. McMynn, of the West Kootenay Power & Light Company.

Reeve B. F. Gummow stated that he was glad to see so many ratepayers present and, in view of the interest, would make the meeting public and allow any ratepayer to ask questions. While surprised at having to address a public meeting when he had expected to meet the Council, Mr. McMynn answered all the questions that he could and said that others he would have to refer to the head office of his company. When asked what the possibilities were of having the West Kootenay Power Co. come into the district and take over the existing plant and lines, he said that he was not in a position to answer this off-hand. This would depend on the number of consumers and the condition of the line.

One of the questions of greatest interest was the rate charged by the company, and he gave the uniform domestic rate for similar districts as 12c per kilowatt hour for the first 25 k.w. hours and 10c per k.w.h. for the next 35 k.w. hours. The combination rate would be with a minimum of \$2.50, 12c for the first 25 kilowatt hours and 3c for each kilowatt hour after using \$3.00 worth of energy. The average rate for the domestic combination for a five or six room house was about \$4.50 to \$5 per month.

When asked about Westbank obtaining the Kootenay power, he stated that the number of domestic users was not enough to warrant going into Westbank, but that possibly the combined revenues of Peachland and Westbank might warrant the company coming in. Asked about street lights, he said one street light would cost about \$1 per light per month.

Asked how far a line would be taken to a consumer, Mr. McMynn stated that usually they figured ten to twelve customers to a mile, in groups of four to five customers. If one was away off by himself, he would have to put up the difference in cost and also pay a minimum of \$750 per mile.

With no more questions forthcoming, the Council re-convened and Mr. McMynn was given all the information he required about lines and consumers. He stated that Peachland was enjoying very cheap light and, when given the present rate in use here for places on meters, he figured that the Peachland rate was \$1.60 less for the average household per month. (The Peachland rate is 10c for the first 15 k.w. hours, 6c for the next 35 k.w. hours and 5c for all over that.)

The estimates submitted by the School Board for the year were returned by the Council after a long and at times heated discussion. The item to which exception was taken was the proposed expenditure of \$1,200 for a heating plant for the three rooms. Four more mills would be required on the school rate to meet this cost, even with \$250 in the trust fund used for this purpose and a 20 per cent grant from the government. Last year it was pointed out that \$900 was advanced out of public funds for the School Board, while \$800 was advanced the year before.

With the school rate 13 mills for last year, it would have to be raised to 17 mills to take care of the added expenditure. It was felt that it was not fair to tax the people this whole amount in one year, but that, if the School Board wished to submit a money by-law, this amount could be spread over a number of years, provided it received the sanction of the people.

All relief recipients must be put to work, it was stated, and arrangements were made to start them to work at once on removing poles from properties purchased from the Municipality. The brush along the lakeshore is also to be burned and sidewalks are to be fixed.

A resolution from Penticton Council regarding old age pensions was endorsed.

A letter was authorized to be sent to J. Clements, stating that no responsibility would be taken by the Council for damages which might result as a consequence of his ice house directly under the high tension wire, with the roof only four feet away from the live wire, and that this matter would be referred to the Inspector of Electrical Energy.

Reeve Gummow explained that light troubles during the week had been caused by the power house being flooded with water when the packing on the valve had become loosened. The belt was slipping badly after it was dried out and the advice of an experienced electrician was obtained and the generator moved back three inches. The main fly wheel was not quite level and this had a tendency to throw the belt when the voltage was high.

Miss Muriel Page addressed the Women's Institute on Friday afternoon, when the meeting took the form of a Book Tea for St. Valentine's Day. She took up informally various individual books in circulation in the Library and spoke of their authors and background. She also mentioned some of the difficulties encountered in meeting the needs of the readers throughout the whole district, which comprised 42 centres, and asked for patience in waiting for requested books. In closing, she spoke of children's books and read one of the latest of these attractively illustrated volumes, which was the story of Ferdinand and was appreciatively received.

A book contest was won by Miss M. Coldham, while Mrs. P. Gynow won the prize for the best Valentine. In the children's section, Edna Cousins was the prize-winner, with Archie McKinnon receiving favourable mention. These were judged by Miss Page and Mrs. J. F. Hampson, of Kelowna, who accompanied Miss Page.

A solo by Mrs. R. Nourse, which was accompanied by Miss M. Coldham, was much appreciated, while the answer to the question was the name of a book read and enjoyed.

Mrs. W. D. Miller won the raffle of a box of chocolates.

Education Week was observed here with parents visiting the school and having a chance to observe their children at work. The Primary room, with Miss Leah Morsh as teacher, has the largest number of pupils, with 33 attending in the three grades, 1, 2 and 3. Mr. M. Barwick, the principal, has 26 pupils in the other five grades, with the High School having 16 enrolled, with E. H. Bowering as teacher.

The High School took up the subject of the responsibility of education for Friday of the week and essays were written on the subject from the different angles of the Government, Parent, Community, Individual, Teacher and Pupil, which proved of interest.

On Wednesday evening the physical part of education was presented in Athletic Hall, with the pupils of the two senior rooms taking part in an indoor track meet. Races of different kinds provided fun and an opportunity for skill, with four teams competing and comparing points to show the winners. A number of exhibition games of various phases of physical education work were shown under the supervision of Mr. Barwick, after which a few games ended the evening's enjoyment.

A few appeals from Trepanier were taken up at the Court of Revision on February 8th, with very slight changes made. Inspection is to be made of several of the properties in question when weather permits. Mrs. I. Cousins, Mrs. M. Davidson, Dr. W. Buchanan, F. Kinchin and L. B. Shaw sent in appeals for reduction.

Two new members were elected to the Peachland half of the Peachland-Westbank Board for the Victorian Order of Nurses at the annual meeting of that order, held on Tuesday evening in the Municipal Hall, Mrs. T. Redstone and Mrs. R. Nourse. The other four, Mrs. W. D. Miller, Mrs. A. C. Vincent, E. H. Bowering and W. B. Sanderson, were re-elected. Reports on the year's work were read by Miss Gowan, V.O.N. nurse, and the President, Mrs. Miller, while the Secretary's report was given by E. H. Bowering and the Treasurer's report by W. B. Sanderson.

Mrs. T. Redstone was hostess at the meeting of the Women's Association of the United Church, held at her home on Wednesday afternoon, February 9th.

Word was received on Saturday morning by Mrs. G. Fernyough that her husband, who had been receiving treatment at the Shaughnessy Military Hospital at Vancouver, had passed away. This has been heard with regret by the many friends of the deceased who had hoped for his recovery.

Born fifty years ago in England, George Fernyough lived in Winnipeg for many years and served with the Canadian Expeditionary Force as an artilleryman. He was an accountant in Winnipeg after the war, but ill health forced him to give up his position. With his wife and daughter Dorothy he came out to Vancouver and about five years ago moved to Peachland.

Active in all community affairs, he was a member of the Canadian Legion and served as President for several years. During that time he worked enthusiastically for all Legion efforts and was gifted in arranging amateur theatricals. During the last year ill health forced him to give up all activities and in December he went to Vancouver to receive treatment.

He is survived by his wife and daughter Dorothy, who left for Vancouver Saturday night to make arrangements for the funeral which will be held at Vancouver.

Miss B. Norman, of Armstrong, arrived in town Saturday evening and is the guest of Miss Cleo Baptist.

Mrs. O. Keating returned home on Wednesday, after spending a short holiday in Penticton.

Summerland Merchants made short work of the Peachland Senior C's on their own floor Thursday evening, downing them with a score of 46 to 13. In good form the southern team sped through the game with ease to keep the Peachlanders right where they wanted them. Leading in the first half 19-7, they increased their lead as they went along in spite of the gallant efforts of the opposing team to make a showing in the scoring.

Two games played by the local teams at Westbank on Monday night showed a different story. The Senior C's romped home to a 32 to 26 victory over Westbank and the girls, in a slow game, came out ahead 11 to 8.

Westbank took the lead in the first half, 17-11, with every player scoring and Morrison doing some good work for his team. The Peachland team went into their customary spurt in the second half, with Elkins and Gillam scoring 8 baskets each. Elkins and Morrison tied for scoring honours with 12 each, and Bowering made 10.

The girls all took a try at the basket, with Fulk, Elkins, Duquemin and McKay all scoring. Annie Topham at centre was a good addition to the team, while McKay and Elkins at guard kept the Westbank girls well checked. Summerland Merchants: Gregory 10, Beech 10, McDougall 8, Thorpe 6, W. art 4, Thompson 4, J. Bennett 2, E. Bennett 2-46.

Peachland Senior C's: Elkins 6, Bowering 4, Twinnam 3, Gillam, Gummow-13.

Peachland: Elkins 12, Bowering 10, Gillam 6, Miller 3, Coldham 1-32.

Westbank: Morrison 12, Lundin 4, Jones 4, Currie 3, Drought 2, G. Currie 4-26.

Peachland Girls: J. Fulk 4, Duqu-

VACCINATION FINISHED IN RURAL DISTRICTS Clinics Will Be Held In City During Month Of March

Dr. G. A. Ootmar, City and District Medical Health Officer, reports that vaccination against smallpox has been finished in the rural districts adjacent to Kelowna. Only sixty children were not inoculated, which, he says, is a splendid response.

Vaccination clinics in the city will be held next month.

Although the immediate danger of an epidemic of smallpox is over, states the Doctor, there is still a focus south of the international boundary, where a religious organization which does not believe in the existence of disease or in vaccination is in constant communication with people in Oliver and at other southern B.C. points. As smallpox is prevalent amongst the members of the organization, danger of the development of fresh cases is not over. Accordingly, Dr. Ootmar advises every one who intends to travel through that portion of the United States to visit his doctor for vaccination before he begins the journey.

"Ladies! Don't make your husband do the housework," says a domestic expert. "He may develop womanish traits and want to be boss of the house."

min 3, McKay 2, Elkins 2, Thompson, Miller-11.

Westbank Girls: Paynter 3, Fenton 2, Drought 2, Cross 1, Currie, O. Dobbin-8.

RECIPE

ROYAL CITY PORK AND BEAN CASSEROLE

Combine 1 can of Royal City Vegetable Soup with 1 can of Royal City Pork and Beans, 1/2 cup of chopped left over meat, 2 tablespoons of tomato juice and sprinkle with bread crumbs or Corn Flakes. Place in the oven and bake. Serves 5 to 6.

Dates for the Interior Provincial Exhibition this year at Armstrong, have been named for September 12 to 15.

B.C. Fair Association.

The quantity of salt produced in Canada during 1936, according to finally revised statistics, totalled 391,316 short tons, valued at \$1,773,144, as compared with 399,343 short tons worth \$1,800,978 in 1935.

Mrs. W. J. McDowall Reports To
Annual Meeting For Internal
Management Committee

Change-over from the nurses' training school to a complete graduate staff was carried out during 1937, Mrs. W. J. McDowall, Chairman of the Internal Management Committee reported to the annual meeting of the Kelowna Hospital Society. Her report follows:

"During the past year our Internal Management Committee was called upon to do the best possible on a very limited budget, this condition being brought about due to money being urgently required in other branches of the Hospital work. This consequently necessitated the curtailment of expenditure to a minimum. However, we are confident the funds available to your Committee were used to very good advantage."

"As advised in our report of last year, the training school was closed, due to conditions outside of our control. However, the Lady Superintendent was able to arrange her staff whereby four of the student nurses in their final year were enabled to finish their training with us. These students graduated at our Hospital in June last year and the remaining members of the school were suitably placed in training with Hospitals at the Coast without loss of standing to them. The students' classroom was immediately converted into a ward, thereby adding materially to the bed capacity, resulting in additional revenue to the Hospital."

"In addition to keeping up the furniture and equipment in its usual high state of efficiency which in itself is a considerable item of expenditure, we were able to complete the purchase of six new beds and five cross-bed tables for the private wards."

"The change over to an all-graduate staff, which now consists of Matron and sixteen graduate nurses, naturally resulted in a higher salary cost, which to a certain extent, however, is offset by a lower housekeeping expense due to the smaller number on the staff and to the extra revenue derived from the use of the class-room as a ward. One of the most pleasing features of the move is in the repeated, unsolicited expressions of appreciation extended to the Directors by patients who prefer to be attended by a graduate rather than a pupil nurse. This is not casting any reflections upon the pupil nurse, as not only the officials of the Hospital, but the public generally appreciate the fact that nurses must be trained at the commencement of their career and our Hospital has been indeed fortunate in the high class of training given to its pupils by the medical profession and the officials in charge and also in the

exceptional ability of the students as a whole over a great period of years. "May 12th, Florence Nightingale Day, was announced as 'Open Day' for visitors to the Hospital, but was later postponed to a date in October owing to the Coronation celebration. The day was quite a success and large numbers from the City and surrounding districts availed themselves of the opportunity of visiting the Hospital, bringing donations of fruit, vegetables, eggs, butter, preserves and provisions of a general nature suitable to its needs. This special day set apart for showing the Hospital and its work to the general public is being more and more appreciated each year. It affords the public an insight into the vast amount of work and the equipment necessary to operate an institution of this kind and also gives them a better idea as to the necessity of providing funds in order that the work can go along in an unhampered manner. The Committee desires to express their appreciation to the Lady Superintendents who so ably assisted in making visitors' day a pleasant event."

"The Internal Management Committee, in its work, comes more closely in contact with the medical staff of the Hospital possibly than other committees and takes this opportunity of expressing to them, one and all, their appreciation of the splendid co-operation extended by them at all times, which helps in a great measure to the success of the Hospital."

"It is a difficult matter to express in suitable terms all we feel in regard to the great assistance rendered by the President and members of the Women's Hospital Auxiliary to whom we are indeed grateful for their outstanding assistance."

"The demand for linen has been very great; when one realizes the Auxiliary raised for linen, etc., over \$1,000.00 last year and in addition contributed their time in making up various articles and again assumed a share of the housekeeper's salary, one can only say it is a most wonderful work they have accomplished. Another branch of work undertaken by the Auxiliary this year was the installation of a lending library available for the use of the patients. This entailed the securing of donations of books, cataloguing of same, issuing to the patients and attending to their return and repairs as necessary. This has been a very busy branch of work under the direct supervision of Mrs. W. J. Butler, to whom we extend our thanks. At this point we wish to express to the Auxiliary our deep regrets at the passing of one of their loyal workers, we refer to the late Mrs. E. C. Neish, who so ably officiated as their Secretary for a considerable number of years."

"To the President and members of the Junior Auxiliary, who have again so nobly taken off our shoulders the furnishing and upkeep of the Nurses Home, we also extend our thanks."

"In conclusion, we desire to record our great appreciation of the loyal and efficient service again rendered by the Matron and staff as a whole."

RE-ADJUSTMENT FROM TRAINING SCHOOL TO GRADUATE NURSING STAFF HAS TAKEN ENTIRE YEAR

Lady Superintendent Speaks On
Shortage Of Accommodation
And Equipment

The annual report of the Lady Superintendent, Mrs. M. E. Wilnot, to the annual meeting of the Hospital Society, at the Royal Anne Hotel last Friday afternoon, covered many aspects of the Hospital work, but mainly showed the necessity for more accommodation. Many of the points covered by Mrs. Wilnot were also discussed by the Chairman of the various committees.

Following is Mrs. Wilnot's report, in part:

"This year has been an exceptionally busy one, and has been marked by the extensive change from a training school to a graduate staff. It is a most difficult thing to bring nurses from so many different schools and carry on the routine work which has been our practice, without the necessity for a great deal of re-adjustment on the part of the nurses accepted on the staff, as every hospital is a law unto itself. It has taken me practically a year to make these re-adjustments and have the machinery running smoothly."

Mrs. Wilnot spoke briefly of the water seepage condition at the Nurses' Home, covered by Mr. Broad's report, and continued: "Another serious condition arising is the shortage of ward accommodation afforded by the Hospital to the public. Our population has increased considerably and yet the Hospital capacity remains the same as in 1927. You will see by the statistics that the number of patients treated in 1927 was 744 and in 1937, 1,452. Perhaps this will give you a picture of the problem with which we are faced, in endeavouring to give efficient hospitalization to the public."

"When the Hospital was built in 1908 it was a small cottage unit and has been added to from time to time, with the result that it has been impossible to look after the increased number of patients with the same staff needed in a larger institution, planned along modern lines."

"What we really require from the Government is an up-to-date unit of 20 beds, equipped by the Government, as it would be impossible for us to take any responsibility for the furnishing."

"Our Hospital Insurance membership has increased from 1,710 members in 1936 to 1900 in 1937, and yet, if the Hospital is to be satisfactorily financed, and efficient service given to the public, it will have to be supplemented by more definite and stable assistance, by way of fixed grants from the Government and from the City, to a considerably larger extent than have been given in the past."

"Our present equipment is not efficient, as we require at least 12 new beds and mattresses. As it now stands, some of the original beds and mattresses are still in use, and to say the least, are most uncomfortable."

"Our corridors need proper lighting facilities. At the present time, they are lighted here and there by single bulbs with cord attached, which greatly detracts from lighting efficiency and appearance."

"I think I mentioned last year that we required \$3,500 to bring our X-ray equipment up-to-date. It stands today as it did then, although the service from this unit has increased fourfold. To turn out efficient work with obsolete equipment is a problem that I, at least, cannot solve."

"I do not, for one moment, wish to appear to be complaining. I have drawn the foregoing matters to your attention in the hope that when the public hears of the requirements of their Hospital, they will give their serious consideration to the matter of ways and means of raising the necessary monies to meet our requirements."

The following are the statistics for the year:

Patients-In—Remaining: 28; admitted, 1,212; new born, 197; total, 1,437.

Patients-Out—Died: 43; cured, 1,020; improved, 278; unimproved, 51; not treated, 2; diagnosis only, 4; remaining, 39; total, 1,437.

Treatments—Medical: 235; surgical, 406; obstetrical, 228; new born, 197; E.N. & T.: 219; gynecology, 24; infectious, 26; skin, 7; not treated, 2; observation, 2; no diagnosis, 2.

Operations—Major, 144; minor, 208.

X-rays—In, 223; out, 178.

Patient Days—16,621.

Nursing staff—15 graduates, one housekeeper, one orderly, one groundsman, whose services are used for interior decorating and to assist with the heating during the winter months; three on kitchen staff, two in laundry, and extra help in this department procured from time to time; four maids, who are responsible for cleaning, dusting and setting up trays.

In conclusion, Mrs. Wilnot spoke of the valuable contributions of Mr. Smith, bacteriologist. "Very few people," she stated, "realize what valuable service he has rendered the public with his vaccines or prophylactic treatment, under conditions which have not always been conducive to good work. We are, indeed, fortunate to have the services of such a valuable man, who, by his quiet efficiency and devotion to duty, has done much for the welfare of the Hospital and the district."

Mrs. Wilnot thanked the public for its interest and donations, the Ladies' and Girls' Auxiliaries, the various organizations and institutions in the district, and Mr. D. K. Gordon, President, and members of the Board for their assistance and co-operation, as well as Mr. P. E. Russell, the new Secretary-Treasurer.

Exports of Canadian live poultry to the United States totalled 1,157,768 during the first eleven months of 1937. In the corresponding months of 1936 the number was 344,937 birds.

NURSES' SALARY COSTS BROUGHT SURPLUS LOWER

All Graduate Nurses Mean Heav-
ier Outlay By Hospital Society,
Says Finance Chairman

Stressing the impossibility of the Hospital financing interest and sinking fund charges on top of ordinary expenditures, in the case of the proposed new wing, Ald. G. A. McKay presented a comprehensive review of the financial situation of the Hospital to the annual meeting. Following are his statements:

"As Chairman of Finance of the Kelowna Hospital Board, I have pleasure in submitting the Financial Statement for the year 1937. The finances of the Hospital are still in a satisfactory state, in that we have managed to pay our way. It is not my intention to go into details of the balance sheet placed before you, but would draw your attention to the following points, which are no doubt of interest to you."

"The balance sheet shows an increase of cash in hand of nearly \$2,000 and we have added \$2,000 to our building fund account."

"Our liabilities of \$1,657 are approximately the same as last year and consist of current accounts."

"The operating surplus for the year was \$887.00 and this has been carried to surplus account. The surplus is not as large as last year when it showed \$3,600.00, but this is due to increased expenses, mainly nurses' salaries. As you know, we dispensed with the training school last year and our nursing staff now consists of all graduate nurses. This has raised the amount paid in salaries by over \$4,000.00, but I have no doubt the public is deriving the benefit, in getting the best professional nursing services procurable."

"The balance of operating expenses has been kept as low as was possible with efficiency. Heating was \$195.00 higher than in 1936, due to the severe winter in January and February of last year."

"Light and water increased by \$226.00 due to the operating cost of pumps to try and keep the basements of the Nurses Home and Hospital free from water."

"As regards revenue, the amount charged to patients was increased by \$1,300.00 but we have again written off even more than last year, a sum of \$10,669.00 to reserve for uncollectable accounts."

"Grants in aid showed an increase. The Provincial grants were up about \$500.00 for the year and the City of Kelowna grants were also up about \$500.00, making the total for the City of \$4,762.00 for the year."

"Particulars of the Insurance Plan. I will leave it to the capable hands of Mr. Logie to explain. The Plan is working successfully and is giving us a definite income on which we can budget."

"We are indebted to many of our supporters for subscriptions and donations this year, of which \$410.00 was paid in cash. Noticeable was a voluntary subscription from the Chinese Community of \$180.20, also a \$5.00 subscription from the N. K. Company, a Chinese enterprise."

"I would also like to take this opportunity of thanking the Hospital Ladies' Auxiliary for their splendid support during 1937, they having implemented the Hospital funds by \$880.00. To the Junior Girls' Aid and all others who so kindly offered their support we are deeply indebted. Our Secretary, Matron and staff have co-operated in every way possible to make your Hospital a credit to your community."

"It is the purpose of your Committee to continue a sane, progressive policy during 1938 as has been adopted for the last number of years."

"We are faced with an estimated \$1,500.00 loss during 1938, as under Bill 42 brought down and under the Bill the Hospitals Act by the Provincial Government, we lose one full day's revenue from each patient discharged during the year."

"We will also have to meet a situation at the Nurses Home that is causing a great deal of inconvenience and possibly a menace to health. I refer to the water seepage in the basement. A Committee has been appointed to go thoroughly into the matter and we have had expert advice, but nevertheless it will require a considerable sum of money to remedy the situation."

"Last, but not least, we have the matter of increased accommodation and this question is giving your Finance Committee a severe headache. In my opinion, it is absolutely impossible for the Kelowna Hospital Society to ever hope to build additions to their Hospital and pay for same out of current revenue. We find it takes almost our entire revenue to cover operating costs, renewals and a small capital outlay each year and to add cost of interest and sinking fund would be out of the question. Any suggestions to overcome the difficulty would be gladly received by the Committee."

STEADY INCREASE IN INSURANCE PLAN COLLECTIONS

Nineteen Hundred Contracts Paid
Up At Year End Hospital Soci-
ety Meeting Is Told

FINANCE NOT SO
SATISFACTORY

W. J. Logie Reports Amounts
Paid By Contract Patients
Not So Great

A healthy increase of 11 per cent was shown in 1937 in the Hospital Insurance Plan, Mr. J. Logie, Chairman of this Committee, told the annual meeting of the Kelowna Hospital Society last Friday. At the same time, the financial end of the picture is not so gratifying. Following is Mr. Logie's report:

"During the year, the Insurance has shown a gradual but consistent growth in the number of contracts in operation, ending the year 1937 with exactly 1,900 contracts in good standing, an increase of 11 per cent in membership. As there were, on the average, about 20 contracts lapsed each month for non-payment of dues, removal to another district, or other reasons, each month between 30 and 40 new contracts were written."

"The average number of persons insured on each contract is 3.5, making a total of approximately 6,650 persons under the Insurance Plan. This figure of 3.5 has remained about the same, the new contracts written this year averaging around the same figure."

"As to the manner in which this has been used, the number of insured patients increased during 1937 from 801 to 897, in increase of 96, or a 12 per cent increase, a reasonable figure in view of the number of insured persons. The average stay in the Hospital of insured persons decreased slightly, showing an average stay of 12.24 days, per patient, as compared with an average stay of 16.36 days for non-contract patients."

"While the membership end of the Insurance Plan has shown a gratifying increase, the financial picture is not so satisfactory. While there has been a net increase of 11 per cent in number of contract members, total amounts paid by contract patients has shown only an increase of \$700 from last year, or 3.6 per cent. This has been due to a variety of reasons, but principally due to the fact that the early months of the year were very bad collection months and the amounts paid by contract members were much less than they might have been under other circumstances."

"At the same time, the accounts incurred by contract patients show a very marked increase from \$2,779.83 to \$24,873, or a 13 per cent increase. As a consequence of this small increase in amounts paid by contract patients, as compared to the accounts incurred by them, the percentage of collections to amounts due has dropped from 88 to 80 per cent."

"The costs of operations have been kept as low as reasonably possible, being \$1,612.36 during 1937, and \$1,824.81 in 1936, a little over 8 per cent of the revenue being devoted to operating costs."

"I would express my appreciation of the work of Mr. Dave Chapman, who, as representative of the general public on the Insurance Committee, has been an active and valuable member of the Committee."

"Our collector, Mr. A. H. Povah, who started March 1, 1937, has performed a very fine job in keeping the membership roll steadily going up and deserves much credit for the manner in which he has kept down the arrears and revived old contracts."

"I would also express the Committee's satisfaction at the continued co-operation of the agents in outside centres, as well as those firms, A. H. DeMara & Son, McTavish & Whillies, Okanagan Loan, who allow their offices to be used for collecting purposes."

"Grenville" Company 1358

Orders for parade: There will be the usual voluntary parade at Headquarters on Friday, Feb. 18, at 7.30 p.m. The Ship's Company will attend parade at Headquarters on Tuesday, Feb. 22, at 7.30 p.m. Uniforms will not be worn at either of these parades.

Instruction classes under the Leading Hands take place at Headquarters on Saturday, Feb. 19, from 9 to 10.30 a.m. Quartermaster Cadet Patterson, Sideboy, Cadet G. Hand, Port Watch for this week, Port Watch.

At last Tuesday's parade, Dr. Large instructed several Cadets in First Aid. Other subjects taught by the various instructors were Knot, Splices, Compass, Dutyman, Semaphore and Rifle Drill. A squad was chosen, during parade, for special duty at the Navy League Ball.

So far, no one has beaten Mr. Stone in the ticket selling race but Cadet Patterson is not far behind him. There is a fine prize for the Cadet who sells the most tickets and still a finer for the lucky one who manages to sell more than the Chief Warrant Officer.

"Who," asks a political writer, "would support the principle of robbing Peter to pay Paul?" Well, Paul might vote for it, for one.

RE-ELECT ENTIRE HOSPITAL BOARD

VERNON, Feb. 17.—Indicative of the confidence held in the management of the Vernon Jubilee Hospital is the fact that the entire Board of Directors of that institution was re-elected for the ensuing year, at the annual meeting in the Board of Trade room on Friday evening of last week.

The personnel of the Board for 1938 will therefore be: Mrs. C. Hamilton Watts, Mrs. W. S. Harris, S. Spyer, L. R. Clarke, H. H. Tait, J. E. Montague, C. J. Hunt, Frank Valair, D. J. Robinson, Dr. F. E. Pettman, Rev. H. C. B.

Gibson, I. V. Sauder, Gordon Lindsay, elected members. Mrs. Hamilton Watts has served as President, Mr. Spyer as First Vice-President, and Mr. Clarke, Second Vice-President.

Appointed members of last year's Board were: Mrs. F. G. deWolf, Mrs. W. H. Bourke, Women's Hospital Auxiliary; Aldermen Everard Clarke and A. C. Wilde, City Council; H. D. Pritchard, Klansmen Club; Reeve E. J. Sunderland, Coldstream Municipality.

Teacher: "Johnny, how many days are there in each month?" Johnny: "Thirty days hath September, All the rest I can't remember. The calendar hangs on the wall, Why bother me with this stuff?"

ENTIRE DISTRICT BENEFITS FROM LABORATORY HERE

J. R. Beale Elucidates On Aid Provided By Central Okanagan Unit

"There is little doubt that every municipality in Dr. Ootmar's territory benefits by the work done in the Central Okanagan Laboratory and should contribute towards its support," stated Mr. J. R. Beale, Chairman of the Laboratory Committee, in presenting his annual report to the Hospital Society, as follows:

"During the year, 1,421 specimens were examined and 2,270 tests made. In addition, 348 vaccines were prepared, 225 of them being for oral administration where patients were suffering from typhoid fever and 123 for inoculation for the relief of other diseases. Stocks of smallpox vaccine, diphtheria toxoid, scarlet fever antitoxin and serum for use in cases of rattlesnake bites, measles, poliomyelitis and tetanus, and for matching blood required for transfusion are always kept in stock. The preparation of these vaccines entails considerable labour and much care."

"The area for which Dr. G. A. Ootmar, our Public Health Officer, is responsible stretches all the way from Oliver to Enderby and from the Similkameen Valley to the Kootenays."

"Last year, I referred to the inadequacy of the Laboratory equipment an alibi hope that the Provincial Officer of Health, Dr. H. E. Young, would be able to allocate funds sufficient to remedy this. Dr. Young visited Kelowna in the summer and spent an hour with Dr. Ootmar, Mr. Smith and myself in the Laboratory and listened sympathetically to our representations. A list of necessary equipment had been prepared and was studied in detail but, at the close of the interview, he explained that very little financial aid would be available. However, before he left Kelowna, a special grant of \$175.00 was promised us and this has since been received and spent. New equipment includes a splendid Zeiss microscope and a water bath, which together cost \$391.00."

"The Laboratory income is mainly derived from the Hospital Society, which makes a grant of \$85.00 a month. \$300.00 is received from the Provincial Government and grants of \$250.00, \$100.00 and \$75.00 respectively are received from the Municipalities of Kelowna, Penticton and Summerland. There is little doubt that every municipality in Dr. Ootmar's territory benefits by the work done in the Central Okanagan Laboratory and should contribute towards its support. Dr. Young shares this view and has been asked to assist in obtaining practical recognition of the service rendered. Dr. Dolman, Supervisor of Provincial Laboratories, in a letter just received, states that the Provincial Grant for 1938 will be increased from \$300.00 to \$500.00."

"The Laboratory staff has long wanted a Rock Gas installation and in January, 1938, a Rock Gas plant was installed at a cost of \$116.90. Many other pieces of equipment could be used to advantage, chief among them being an Autoclave, Centrifuge, Microtome, Paraffin Embedding Oven and a Saccharimeter. In addition to the ordinary work of the Laboratory, a certain amount of research work in connection with the improvement of equipment and in the investigation of oral vaccines is being carried out."

Pheasants Favourite To Win Over Summerland Merchants After Severe Trouncing Handed To Penticton Five

Kelowna Ahead 86-56 On Two-Game Series—Coasted Home On Second Game

Going into the second of the two-game series with Penticton on Tuesday night waving a thirty-point advantage, Kelowna Pheasants lay back on their laurels and were content with a tied, 30-all game at the southern town, thus giving them victory on the round, 86-56.

The Pheasants will now tackle Summerland Merchants, last year's Interior champs, in a home and home series, and the Pheasants are rated a little better than even money to take the title holders and again snaffle a final play-off berth, after the trouncing handed Penticton on Saturday night here.

Campbell Did Not "Strip"

On Tuesday, they did not bother to use the "ol' war-horse" P. Campbell, and still scored the first five points of the contest before Penticton replied with six points, Kelowna slipping in another two to keep control.

Just before the going to end the first quarter, Bill Garrell and Ken Griffiths showed pugilistic tendencies, but peace was restored without any trouble rising.

There was little change in the scoring during the second quarter and by half the scoreboard showed the Pheasants in the lead 71-40 on the round, an increase of one point on the second game. In the third quarter Penticton crept ahead on the single game, but this advantage slowly melted on the final stanza, and when the final whistle

"In conclusion, permit me to draw your attention to the large number of tests continually being made at a very small cost with a minimum of equipment. I feel sure that the work done here would compare favourably with that of either of the other two similar institutions in the Interior of British Columbia, i.e., the Laboratories at Kamloops and Trail. I again commend to your notice the tireless devotion to duty of your elected representatives and the cordial relations existing between them and the officials of the Laboratory, Hospital, medical fraternity and the general public."

SHUTTLE ENTRIES START TO ARRIVE

Art Godfrey To Be Here From Nelson To Defend His Singles Crown

Entries for the Central B.C. badminton tourney are just beginning to arrive from outside points, with Art Godfrey, of Nelson, defending singles' champ, signifying his intention of making the trip here, next Tuesday, Wednesday and Thursday, February 22, 23 and 24.

Along with Godfrey comes another Nelson star, Miss Edna Watts, who will give Miss Margaret Taylor some stiff opposition. It is also hoped that Daphne Fernie, of Kamloops, whom Miss Taylor met in the B.C. finals at Victoria, will appear at the Kelowna meet.

From Vancouver, two promising junior players, Ken Meredith, who eliminated Alan France in the under 16 finals in the B.C. championships, after a stiff tussle, and Jack Muir, jr., son of the former Canadian and B.C. titleholder, will be here.

Nick Solly and George Fudge will represent Summerland, while Mickey McGuire is expected to be here from Vernon.

sounded, the score was knotted at 30-all.

In the final two minutes, Horton, Johnston and McKay sank three baskets in rapid succession, just to put a spark into the contest.

The preliminary on Tuesday was another play-off match and was "anybody's game" from start to finish. Kelowna and Penticton Intermediate A squads were involved, the latter just managing to eke out a narrow 33-31 victory. The Penticton team went into an early 10-5 lead at the end of the first quarter, but was unable to hold the advantage, only having a 14-12 lead at the half-way mark.

With six minutes of the game to play, Toombs tied the count for Penticton and Adams heaved another in to give the southerners a two-point advantage. Bill Treadgold tied it up again, however, but Toombs gave Penticton its second advantage. This time it was

YOUNG WINFIELD COUPLE HONOURED WITH RECEPTION

Mr. and Mrs. Les. Clement Are Recipients Of Many Useful And Attractive Gifts

WINFIELD, Feb. 16.—A reception and shower was held in honour of Mr. and Mrs. Les. Clement on Tuesday evening, Feb. 8th, at the Community Hall, when some eighty of their friends gathered to meet them.

The Hall had been decorated tastefully with white and silver streamers and bells. The hostesses were Mesdames R. Berry, R. P. White, J. W. Arnold, A. Gibbons and V. R. McDonald and the Misses Alice and Winnie Draper. Many useful and decorative presents were received by the popular young couple.

Mr. and Mrs. Glen Hawks entertained five tables at bridge on Saturday evening last, the occasion being their wedding anniversary. After playing cards, dainty refreshments were served and commode staying followed. All enjoyed themselves very much.

Mrs. P. H. P. Griess is visiting in Summerland at the home of the Rev. H. and Mrs. Pearson.

Mrs. Price, of Nanton, Alberta, is a visitor to Winfield, at the homes of her brothers, the Duggans.

Mr. Nelson Arnold was a Greyhound passenger on Tuesday, when he left on a trip to Chicago and other points in the United States.

Quite a number of parents took advantage of visiting day at the Winfield School on Wednesday of last week.

Work is continuing on the Vernon-Kelowna highway, with the gas shovel in use.

"What has happened to the Anti-Noise campaign?" asks a writer. Naturally it finds it almost impossible to make itself heard.

Handlen who knotted the count only to have Toombs come through for the winning and final points of the game.

Handlen was the outstanding scorer on the Kelowna squad, his shots seeming to sink through the netting from any angle of the court. Both contests were rough affairs, and fouls aplenty were called by the referees.

HOSPITAL NEEDS NEW WING

(Continued from p. 1)

support by services and in kind, and this includes those who so generously helped at the graduation exercises last year.

"All these fine acts of co-operation in the splendid Hospital work in the Kelowna District put me quite at a loss for words to adequately express appreciation and thanks. I simply say, I do deeply appreciate everything that has been done, and thank you."

"But demands for Hospital services are increasing and supplies and salaries are costing more," Mr. Gordon warned. "Yet, the Provincial Government, by Act, will reduce our revenue in 1938 by \$1,500. Had this new Act been in force last year, instead of there being an \$800 surplus, there would have been \$700 loss."

"Turn to the Dominion Government," he continued. "Under the Farmers' Creditors' Arrangement Act a hospital account is not put on the preferred list. In fact, it gets the big cut in spite of the fact that the creditor receives valuable services at low cost in the hour of his greatest need."

Know Your Hospital
In his concluding statements, Mr. Gordon asked his listeners to place on their calendar of good resolutions, a resolution to become acquainted with the Hospital this year. He also asked his audience to remember that it is unthinkable for this community to be without a Hospital, as the Hospital stands to serve one in the moment of one's greatest need.

"Incidence of disease is irregular, but your Hospital stands prepared to meet urgent requirements."

"Your Hospital's first considerations are not can you pay, but can you be cured; what are the patients' needs and their ability to pay."

"Your Hospital strives to incorporate the best which the past has given, and remedy its defects and weaknesses. Your Hospital aims always to raise the standard and efficiency of the work, and provide equipment for the work on hand."

"Your Hospital has never before had so much to offer for the alleviation of the sick."

"Your Hospital is the headquarters for professional nursing, and professional medical and surgical attention. It is your duty and responsibility to think about your Hospital now and not only think of it when you or some one near and dear to you needs hospital care. Therefore, let me urge on you the adoption of the good resolution for all of this year to KNOW YOUR HOSPITAL."
